**CHLOR-WASH**

Detergent - Sanitizer for Cleaning and De-Staining Eggs

**DIRECTIONS FOR USE**

**1. WASHING EGGS**

Chlor-Wash gives excellent results in normal standard egg washing machines for clean up of floor eggs. Product is formulated to help clean up the eggs by bleaching out the stains.

**DILUTION**

1. Normal Conditions - Eggs are not badly soiled. Use 1 oz. of Chlor-Wash per 10 gallons of water.
2. Extremely soiled eggs - Use 1 oz. Chlor-Wash per 10 gallons of water, or more if necessary.
3. For best results in 1 or 2 above, use water at approximately 125°F. to 130°F.

**NOTE:** Product is low-foaming and has de-foaming properties, thus works well in spray type machines.

4. Egg washing by hand or in immersion type machines. Dip or immerse eggs for at least 3 minutes. Remove from Chlor-Wash solution and allow to drain.

**NOTE:** If cleaning solution gets dirty, renew when necessary.

**GENERAL CLEANING AND SANITIZING**

Prepare a solution of 2 oz. of Chlor-Wash in 10 gallons of water. Wash equipment, walls and floors of egg-handling areas to reduce bacterial count.

**DISINFECTING PROCEDURES**

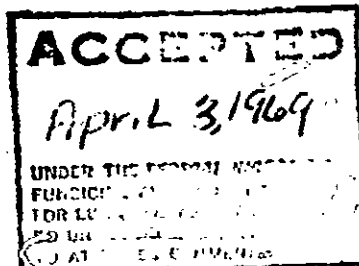

Prepare a solution of 13 1/2 oz. of Chlor-Wash in 10 gallons of water. With this diluted solution, wash down walls, floors and contagious-disease areas (surfaces). If there is a break out of disease, apply a fresh newly made solution after equipment and environmental areas have been cleaned.

**CAUTION**

Keep plastic bag inside container closed and lid on outside container when not in use. May cause skin irritation. Harmful if swallowed. May cause burns or damage to the eyes. Do not get on skin or in eyes. If contact with eyes occurs, flush with plenty of water for 15 minutes and get medical attention. If contact with skin occurs, flush with water. Avoid contamination of food. Do not take internally. If swallowed, induce vomiting, and get medical attention.

**ABCO GUARANTEE**

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
