SCATTER

CONCENTRATED OIL SOLUBLE INSECTICIDE

For Municipal Control of Ants, Crickets, Clover Mites, Earwigs, Flies, Mosquitoes, Mosquito Larvae, Roaches, Waterbugs, Spiders and Silverfish.

ACTIVE INGREDIENTS		99.5%
Xylene	70.0%	
Petroleum Hydrocarbons	1.5%	
Malathion*	0.5%	
Chlordane Technical	6.5%	
INERT INGREDIENTS		.5%
	Total	100.0%

*O, O-Dimethyl Dithiophosphate of Diethyl Mercaptosuccinate
Equivalent to 3,9- octachloro - 4, 7 - methanotetrahydroindane
and 2% of related compounds.

CAUTION
Keep Out of Reach of Children
(See back label for additional cautions)

SCATTER

For fast lasting kill of flies and mosquitoes in exterior areas by municipalities. Also provides excellent outdoor control of roaches, spiders, ants, waterbugs, silverfish, crickets, clover mites, and earwigs.

DIRECTIONS

OUTDOOR AREAS - Apply as an area spray using a fog generating machine or other suitable spraying equipment. Use around garbage disposal areas, land fills, alleyways, dumps, uncultivated land, wasteland and ditchbanks.

FLIES, MOSQUITOES, CRICKETS, CLOVER MITES and EARWIGS - Mix 1 gallon of SCATTER with 4 gallons of deodorized kerosene or diesel oil.

NOTE: When fogging as an area spray, allow fog to alight over high grass or other areas where these insects perch or congregate. Repeat applications whenever necessary. Apply at a rate of approximately 1 gallon per 15,000 to 30,000 square feet of area.

MOSQUITO LARVAE - Mix 1 gallon of SCATTER with 4 gallons of diesel oil or deodorized kerosene. Apply by ground equipment for control in standing water. Apply only to stagnant pools. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Use this mixture per acre of water surface to allow for uniform coverage.

COCKROACHES, WATERBUGS, SILVERFISH AND SPIDERS - Mix 1 gallon of SCATTER with 2 gallons of diesel oil or deodorized kerosene. In sewer manholes, treat inside surfaces of manhole including underside of manhole covers. Use as is - do not dilute. Thorough and repeated spraying of the infested area and directing the spray into other hiding places is important. Hitting the insects directly is also important, along with repeated applications.

OUTDOOR TREATMENT FOR CONTROL OF ANTS - Mix 1 gallon of SCATTER with 6 1/2 gallons of deodorized kerosene or diesel oil. For more positive outdoor control of ants, spray ant trails and areas around door sills and window frames where pests enter the premises. Repeated applications are required in all cases.

NOTE: SCATTER will kill roaches that have developed resistance to chlorinated insecticides such as DDT and Chlordane.

CAUTIONS

Contains Petroleum Hydrocarbons. Harmful if swallowed or inhaled. Contact with skin can cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid breathing of spray mist. Avoid contamination of feed and foodstuffs. Do not use the product in any indoor area. Do not apply to edible food crops. Avoid spraying directly on flowers or other ornamental plants. Keep all unprotected persons out of the operating area or vicinity where there may be danger of drift. Do not reuse empty container. Destroy by crushing and burying in a safe place.

ADDITIONAL CAUTIONS

Do not apply when weather conditions favor drift of spray from areas treated. Fogging procedures should only be used in outside areas. This product is toxic to fish. Keep out of lakes, streams and ponds. Shrimp and crab will be killed at application rates recommended on this label. Do not apply where these are important resources.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and or handling of the material when such use and or handling is in violation of label instructions.

SCATTER

For fast lasting kill of flies and mosquitoes in exterior areas by municipalities. Also provides excellent outdoor control of roaches, spiders, ants, waterbugs, silverfish, crickets, clover, and earwigs.

DIRECTIONS

OUTDOOR AREAS Apply as an area spray using a fog generating machine or other suitable spraying equipment. Use around garbage disposal areas, landfills, alleyways, dumps, activated land, waste land and aeration.

FLIES, MOSQUITOES, CRICKETS, CLOVER, SPIDERS, ANTS, WATERBUGS Mix 1 gallon of SCATTER with 2 gallons of deodorized kerosene or diesel oil.

Apply as an area spray using a fog generating machine or other suitable spraying equipment. Use around garbage disposal areas, landfills, alleyways, dumps, activated land, waste land and aeration.

Apply as an area spray using a fog generating machine or other suitable spraying equipment. Use around garbage disposal areas, landfills, alleyways, dumps, activated land, waste land and aeration.

COCKROACHES, WATERBUGS, SILVER FISH AND SPIDERS Mix 1 gallon of SCATTER with 2 gallons of diesel oil or deodorized kerosene. In sewer manholes treat inside surfaces of manhole including underside of manhole covers. Use as is, do not dilute. Thorough and repeated spraying of the infested area and directing the spray into other hiding places is important. Killing the insects directly is also important, along with repeated applications.

NOTE: SCATTER will kill roaches that have developed resistance to chlorinated insecticides such as DDT and Chlordane.

OUTDOOR TREATMENT FOR CONTROL OF ANTS Mix 1 gallon of SCATTER with 2 gallons of deodorized kerosene or diesel oil. For most positive outdoor control of ants spray ant trails and areas around door sills and window frames where pests enter the premises. Repeated applications are required in all cases.

CAUTIONS

Contains Petroleum Hydrocarbons. Ingestion if swallowed or inhaled. Contact with skin can cause toxic symptoms. Avoid contact with skin. Wash with soap and water. Avoid breathing of spray mist. Wash thoroughly after use. Avoid contamination of feed and foodstuffs. Do not use the product in any indoor area. Do not apply to children's toys. Avoid spraying directly on flowers or other ornamental plants.

Keep the product in a secure container in the operating area or vicinity where there may be children.

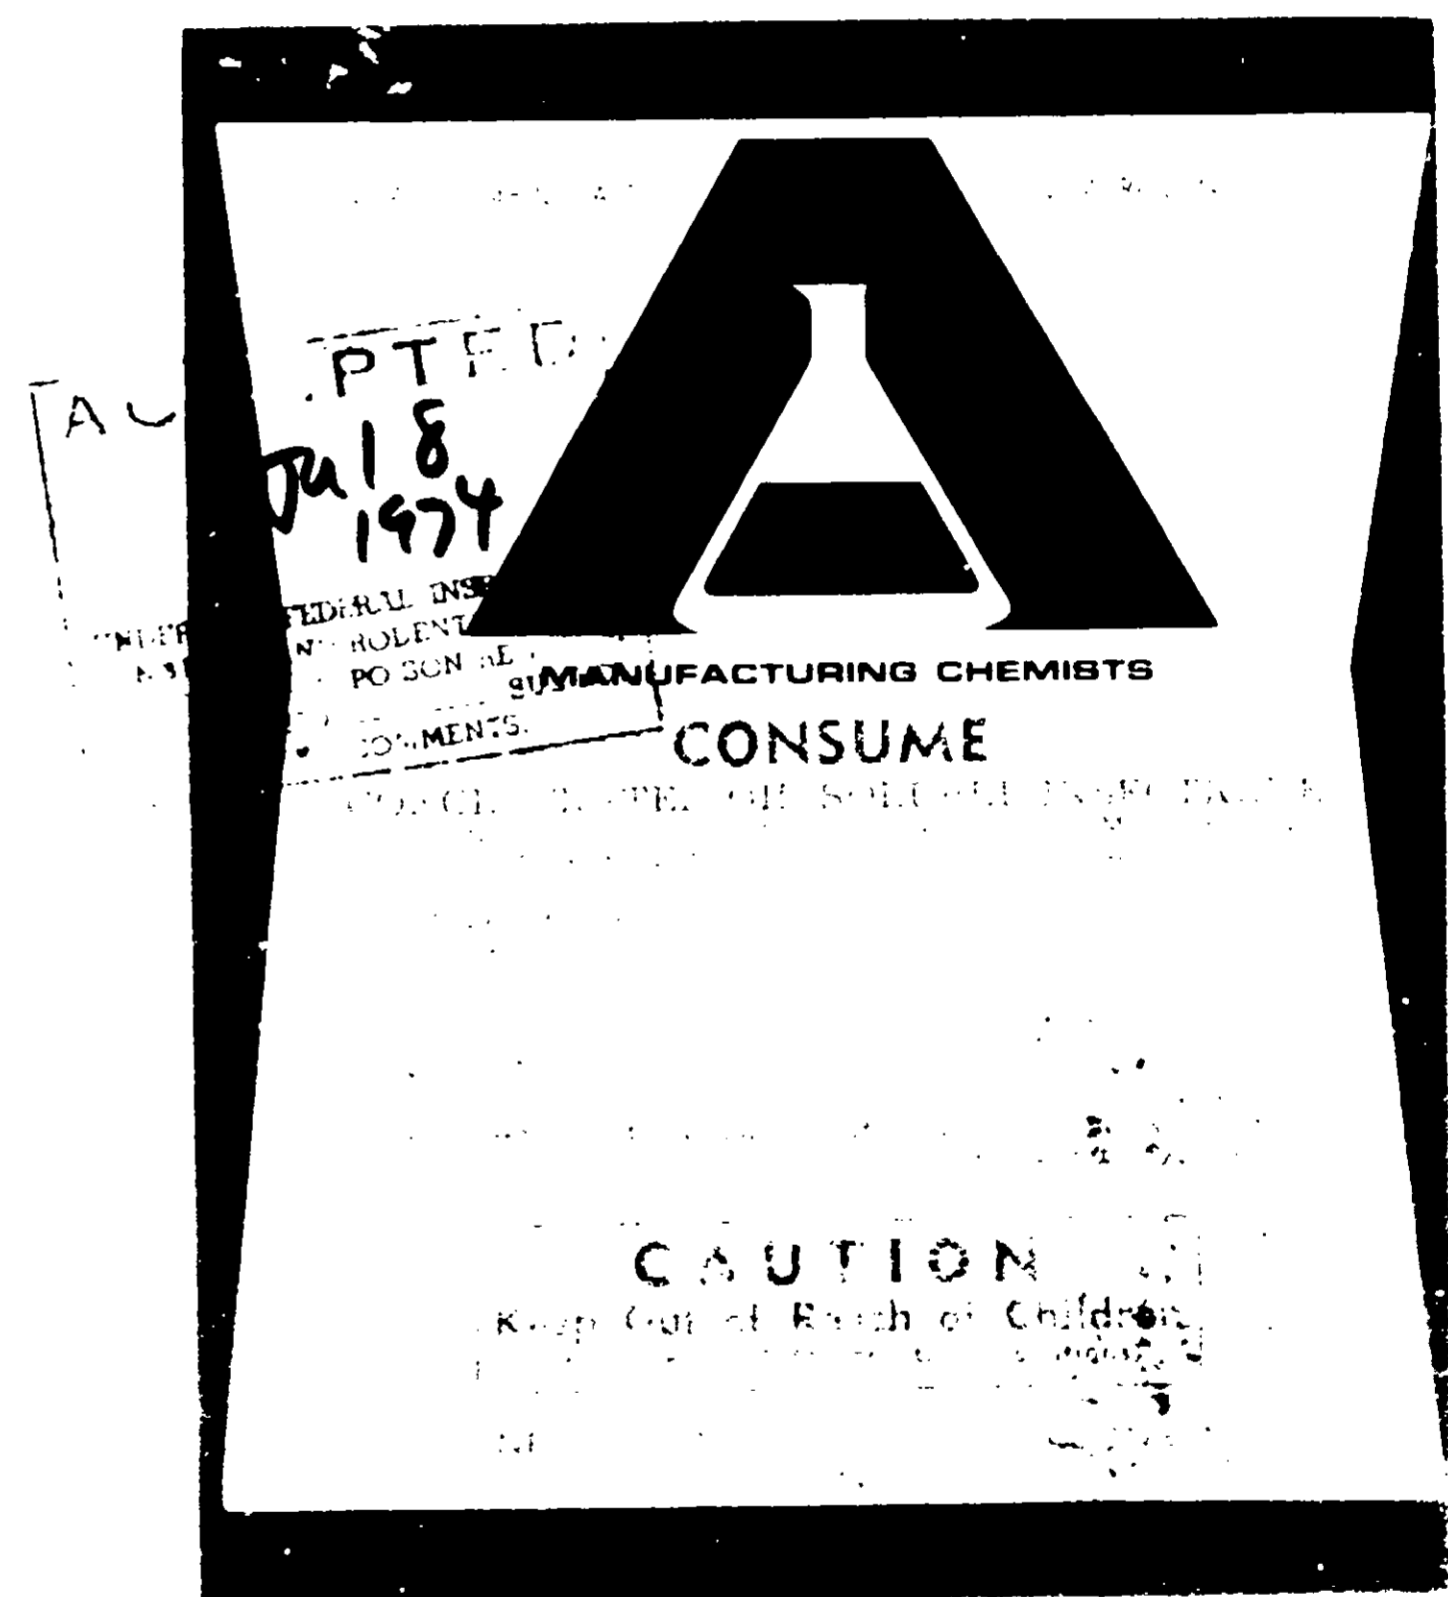

Do not use in any confined space. Do not use in any area where there are children.

ADDITIONAL CAUTIONS

This product is toxic to fish, birds and other animals. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply to areas where birds are likely to roost. Do not apply when weather conditions favor drift into areas treated. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where there are important resources. Apply this product only as specified on this label.

CONSUME

For fast lasting kill of flies and mosquitoes in exterior areas by municipalities. Also provides excellent outdoor control of roaches, spiders, ants, waterbugs, silverfish, crickets, clover mites, and earwigs.

DIRECTIONS

OUTDOOR AREAS - Apply as an area spray using a fog generating machine or other suitable spraying equipment. Use around garbage disposal areas, landfills, alleyways, dumps, uncultivated land, wasteland and firebanks.

FLIES, MOSQUITOES, CRICKETS, CLOVER MITES and EARWIGS - Mix 1 gallon of Consume with 4 gallons of deodorized kerosene or diesel oil.

NOTE - When fogging as an area spray, allow fog to drift over high grass or other areas where these insects perch or congregate. Repeat applications whenever necessary. Apply at a rate of approximately 1 gallon per 15,000 to 30,000 square feet of area.

MOSQUITO LARVAE - Mix 1 gallon of Consume with 4 gallons of diesel oil or deodorized kerosene. Apply by ground equipment for control in standing water. Apply only to stagnant pools. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Use this mixture per acre of water surface to allow for uniform coverage.

COCKROACHES, WATERBUGS, SILVERFISH AND SPIDERS - Mix 1 gallon of Consume with 2 gallons of diesel oil or deodorized kerosene. In sewer manholes, treat inside surfaces of manhole including underside of manhole covers. Use as is - do not dilute. Thorough and repeated spraying of the infested area and directing the spray into other hiding places is important. Hitting the insects directly is also important, along with repeated applications.

NOTE: Consume will kill roaches that have developed resistance to chlorinated insecticides such as DDT and Chlordane.

OUTDOOR TREATMENT FOR CONTROL OF ANTS - Mix 1 gallon of Consume with 6 1/2 gallons of deodorized kerosene or diesel oil. For more positive outdoor control of ants, spray ant trails and areas around door sills and window frames where pests enter the premises. Repeated applications are required in all cases.

CAUTION

Contains Petroleum Hydrocarbons. Harmful if swallowed or inhaled. Contact with skin can cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid breathing of spray mist. Wash thoroughly after using. Avoid contamination of food and food stuffs. Do not use the product in any indoor area. Do not apply to edible food crops. Avoid spraying directly on flowers or other ornamental plants.

Keep all unprotected persons out of the operating area or vicinity where there may be danger of drift.

Do not reuse empty container. Destroy by crushing and burying in a safe place.

ADDITIONAL CAUTIONS

This product is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from area treated. Shrimp and crabs may be killed at application rates recommended on this label. Do not apply where there are important resources. Apply this product only as specified on this label.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
