ABCO ABCO ABCO

EPA REG.
 No. 4828-77

MANUFACTURING CHEMISTS
WK-94
 BROADLEAF WEED KILLER
 For Use On Bluegrass, Fescue, Bermuda grass
 and Pen'grass in Golf Fairways

ACTIVE INGREDIENTS:

Diethanolamine Salt of 2-(2-Methyl-4-chlorophenoxy) propionic acid*	31.00%
Diethanolamine Salt of 2, 4-Dichlorophenoxyacetic acid**	15.35%
INERT INGREDIENTS	53.65%
Total	100.00%
2-(2-Methyl-4-chlorophenoxy) propionic acid (MCP) equivalent	20.90%
2, 4-Dichlorophenoxyacetic acid (2, 4-D) equivalent	10.45%

DO NOT USE ON HOME LAWNS Stable - Non-flammable

CAUTION
KEEP OUT OF REACH OF CHILDREN
 (See back panel for additional cautions)

NET CONTENTS _____ GALLONS

WK-94 provides good results on fairways, but should not be used on golf greens or tees.

WK-94 is effective on the following weeds: Lanterns, Clover, Common Chickweed, Mouse-ear Chickweed, Plantain, Pigweed, Ragweed, Lambs-quarters, Knotweed, Black Medic, English daisy, Dock, Purslane, Wood Sorrel and Mallow.

Directions: Apply when weeds are young and actively growing. Apply only when soil is very moist, following a good rain or thorough watering. Do not water for at least 24 hours after application of WK-94. If it should rain during this 24 hour period, efficiency may be reduced, but wait for at least 7 days to determine whether another application is necessary.

Use equipment which applies product uniformly, such as a boom type sprayer. For best results, and since WK-94 is absorbed through the leaf area, avoid cutting or mowing turf for at least 1 or 2 days before or after spraying.

For established turf, apply at a rate of 1 1/2 fluid oz. in 1 to 2 gals. of water per 1000 sq. ft. or 4 pints of WK-94 in 30 to 40 gals. per acre. Determine the amount of water and WK-94 to be used. Fill the tank of the clean spray equipment partially full with clean water, add WK-94, mix thoroughly and add the balance of the water. Full effect of a WK-94 application may not be visible for about three weeks.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and or handling of this material when such use and or handling is contrary to label instructions.

CAUTIONS

HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES OR CLOTHING: AFTER USE, WASH HANDS AND OTHER PARTS OF BODY CONTAMINATED WITH CONCENTRATE, SPRAY OR WASHINGS.

Do not apply when wind is blowing and do not allow spray to drift to any other plants such as flowers, shrubs or vegetables as WK-94 is a plant killer. Coarse sprays are less likely to drift. Do not use on new grass seedlings until they have developed to stage of first mowing. Do not use grass clippings from first mowing after treatment as a mulch for flowers or shrubs.

Do not apply during period of drought without first watering thoroughly. Do not apply when temperatures are extremely high. Grass may become discolored or injured if this product is applied in very hot weather (over 90°F). Do not contaminate irrigation ditches, lakes, ponds or streams with concentrated solution, spray or spray washings. Do not use same spray equipment for other purposes unless cleaned with a good chemical cleaner, suitable for the purpose. Store in tightly closed containers, away from fertilizers, insecticides, fungicides, seeds, plants and water supplies.

Protect from freezing. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.
