Mint Odor Disinfectant-1

An excellent disinfectant for use in Hospitals, Hotels, Motels, Schools, Industrial Plants and Municipal Buildings. Make a solution of 3 oz. of Disinfectant per each gallon of water. Apply with a mop or rag on floor surfaces, walls and woodwork.

As a deodorant spray, use 4 oz. of Disinfectant per each gallon of water.

Athlete's foot fungus control on Environmental Surfaces: Use a dilution of 2 oz. of Disinfectant per gallon of water. Scrub shower stall floors, rubber and plastic bath mats, locker room floors, benches and all surfaces contacted by the bare feet each day.

CAUTION!

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

If concentrated Disinfectant is swallowed, administer emetics such as a tablespoonful of mustard in a glass of warm water.
 Call a physician.
 Avoid getting concentrate in eyes. In case of contact, wash thoroughly with water. If irritation persists, get medical attention.
 Harmful if swallowed.
 Rinse empty container thoroughly with water and discard it.
 Avoid contamination of food.

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
