## READY TO USE INSECTICIDE

Use outdoors by fogging through conventional thermal, mechanical or compressed air fogging or spraying equipment.

**ADULT MOSQUITOES AND GNATS:** For this application apply as a fog or fine mist at a rate of 1 to 3 gallons per acre (3 to 9 fluid ounces per 1000 square feet) filling entire area with vapor. Repeat as often as necessary to obtain control. For best results, treat when the wind velocity does not exceed 5 miles per hour. Application in evening or early morning is recommended.

To obtain the above application rate using mobile or truck mounted equipment travel at a speed of 5 m.p.h. if a 400 foot wide swath is treated with insecticide dispersed at a rate of 240 to 620 gallons per hour.

**OUTDOOR - ADULT MOSQUITO CONTROL:** Treat shrubbery and vegetation where mosquitoes may rest. Shrubby and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Application of this product to any body of water is prohibited. Repeat as often as necessary to obtain control.

**OUTDOOR - FLIES AND SMALL FLYING MOTHS:** Fill area with fog or fine mist to kill house flies and small flying moths (millers). Repeat treatment as necessary once or twice a week.

**TEMPORARY REDUCTION OF ANNOYANCE:** The aforementioned application for mosquitoes, gnats, flies and moths will afford temporary reduction of annoyance from these pests in public gathering places such as parks and open sports stadiums. Application should be prior to attendance.

**INDOOR - ANTS, SPIDERS, CRICKETS, ROACHES AND BOX ELDER BUGS:**

Direct a coarse spray at the insects and infested areas to wet surface thoroughly. Repeat as needed or after 2 to 4 weeks.

**OUTDOOR - ANTS:** For control of ants spray window and door frames, and along ant paths. Ant mounds should also be treated thoroughly.

### CAUTION

Harmful if swallowed. Avoid breathing of fog or mist. Avoid contact with skin. Wash thoroughly after using.

This product is toxic to fish. Do not apply when weather conditions favor drift from areas treated. Keep out of any body of water. Do not contaminate lakes, streams or ponds by cleaning of equipment or disposal of wastes. Avoid contamination of feed and foodstuff. Apply this product only as specified on this label.

Do not use in edible product areas or food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Do not reuse empty container. Destroy by perforating or crushing and burying in safe place away from water supplies.

Do not use, pour, spill or store near heat or open flame.

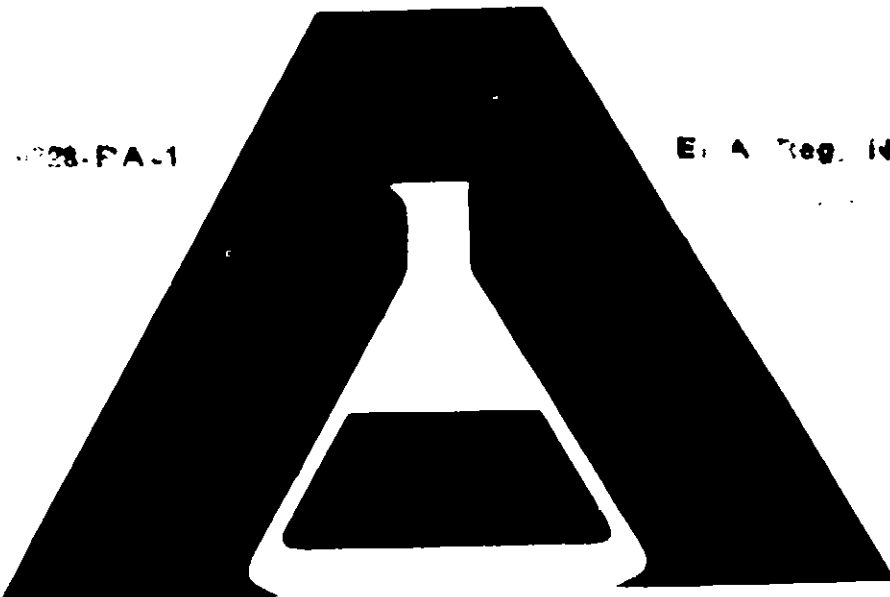

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
