

DIRECTIONS FOR USE

Algae and slime may be affectively controlled with 1 gallon of AL-GE-GO per ~~50,000~~^{47,500} gallons of water. This is an initial treatment after the usual cleaning operation. For subsequent treatments, use 1 quart for each ~~50,000~~^{47,500} gallons of water every 3 days. In hot, sunny weather, this dosage should be given every 2 days. Contents should be placed in the pool at various points, or added through the filters. Each time system is drained and refilled, repeat initial dose. For small pools, use 1 pint to 6000 gallons of water, or 1 cup to 3000 gallons. 1 cubic foot is about 7½ gallons.

*Algacide For
Swimming Pool Water*

AL-GE-CO is an outstanding algae growth de-
pressant in all types and sizes of pools. Helps
eliminate and prevent odors from confined water.

CHEMICAL PROPERTIES

AL-GE-GO is an outstanding algae growth depressant in all types and sizes of pools. Helps eliminate and prevent odors from confined water.

AL-GE-GO is fully compatible with alkalizing and flocculating agents normally used in swimming pools, and is relatively non-corrosive to rubber and metals. Works most effectively at pH levels over 7.0. Highly concentrated.

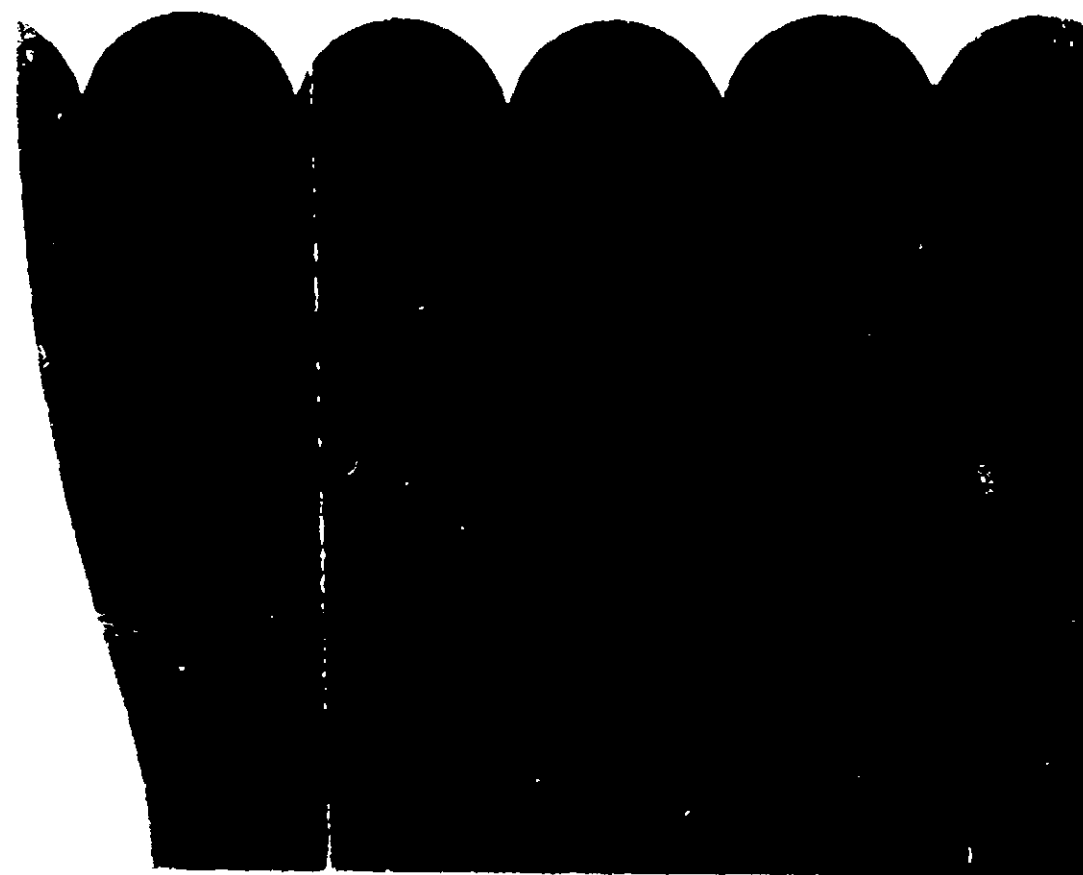

ACCEPTED WITH COMMENTS
