

AL-GE-GO

Algaecide For Swimming Pool Water

ACTIVE INGREDIENTS.....	9.5%
Dodecyl benzyl ammonium chloride.....	5.0%
Alkyl(C14-58%,C16-28%,C12-14%)dimethyl benzyl ammonium chloride.....	4.5%
INERT INGREDIENTS.....	90.5%
Total	100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

See additional precautions and statement of practical
treatment on side panel.

NET CONTENTS: 1 Quart (.946 liters)

CHEMICAL PROPERTIES

AL-GE-GO is an outstanding algae growth depressant in all types and sizes of pools. Helps eliminate and prevent odors from confined water.

AL-GE-GO is fully compatible with alkalizing and flocculating agents normally used in swimming pools, and is relatively non-corrosive to rubber and metals. Works most effectively at pH levels over 7.0. Highly concentrated.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Algae and slime may be effectively controlled with 1 gallon of AL-GE-GO per 47,500 gallons of water every 3 days. In hot, sunny weather, this dosage should be given every 2 days. Contents should be added to the pool at various points, or added through the filters. Each time the system is drained and refilled, repeat the initial dose. For small pools, use 1 pint to 6,000 gallons of water, or one cup to 3,000 gallons. To sanitize walls, runways, locker rooms, and other areas surrounding swimming pool, use a solution of 2 ounces of AL-GE-GO to 4 gallons of water.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: KEEP OUT OF REACH OF CHILDREN. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the E.P.A.

STORAGE AND DISPOSAL

Do not reuse empty container. Rinse thoroughly before discarding to trash. For partially used containers, securely wrap container in several layers of newspaper and discard to trash.
