Clor-Kare Chlorinating Tablets

For use as a Bactericide and Algaecide

KEEP JUT OF REACH OF CHILDRF' DANGER: See Additional Precautionary and First Aid Statements on Back Panel

NET WEIGHT

Clor-Kare Chlorinating Tablets Page 2

# (BACK PANEL)

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Clor-Kare Chlorinating Tablets are a concentrated chlorine agent in a dry, easy-to-use, form. Clor-Kare Chlorinating Tablets control the growth of algae and effectively kill many bacteria, thereby helping to keep the pool in sanitary condition. Use clean, dry scoop to handle Clor-Kare Tablets. Four tablets weight approximately 1 ounce.

# **READ PRECAUTIONARY STATEMENTS BEFORE USE!**

INITIAL CHLORINATION: For new pools, spring start-up or superchlorination, add & Clor-Kare Chlorinating Tablets per 1,000 gallons of pool water to yield 5-10 ppm available chlorine. After 2 hours, use a Coastal Test Kit to determine the chlorine residual. If below 1.0 ppm (parts per million), repeat dosage until 1-3 ppm is obtained. For best results, use a floating dispenser or add tablets to a surface skimmer. DO NOT THROW TABLETS PIRFCTLY INTO POOL. DO NOT ALLOW TABLETS TO CONTACT STEEL OR PLASTIC POOL 'INERS. Do not enter pool .atil chlorine residual is between 1.0 to 3.0 ppm.

ROUTINE CHLORINATION:Add 10 Clor-Kare Tablets per 10,000 gallons of pool water through a floating dispenser or top water skimmer to yield an available chlorine residual of 0.6-1.0 ppm by weight. Stabilized pools should intain a chlorine residual of 1.0-1.5 ppm. Using a Coastal Test Kit as a guide, maintain the pH of the pool water at 7.2 to 7.6. If the pH is below 7.2, add Coastal pH Plus in accordance with label directions. If the pH is higher than 7.6, lower the pH with the addition of Coastal pH Minus, following label directions. The frequency of water treatment will depend upon temperature, bather load and amount of water flow.

SUPERCHLORINATION: Once a week, or if algae is present, superchlorinate pool water by adding 8 tablets per 1,000 gallons of pool water. Thoroughly clean pool by scrubbing surface of algae growth. Then vacuum and cycle through filter. Pool should not be entered until chlorine residual returns to 1-3 ppm.

TO DETERMINE POOL CAPACITY (IN U.S. GALLONS)

.

Rectangular or Square Pools - Multiply length x width x average depth (all in feet) x 7.5 = Gallons

Circular Pools - Multiply diameter x diameter x average depth (All in feet) x 5.9 = Gallons .

Oval Pools - Multiply length x width x average depth (all in feet) x 6.6 = Gallons

Clor-Kare Chlorinating Tablets Page 3

WINTERIZING: While water is still clean and clear, add 3 Clor-Kare Tablets per 1,000 gallons of pool water, while filter is running. Cover and close pool in accordance with manufacturers instructions.

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before use.

# PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water, if neccessary.

# STATEMENT OF PRACTICAL TREATMENT

FIRST AID: If contact with eyes occurs, flush with cold water for at least 15 minutes. Get Medical Attention. If contact with skin occurs, brush off excess chemical and flush skin with cold water for at least 15 nutes. If irritation persists, get medical attention. If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. DO NOT induce vomiting. Call a physician immediately.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waterways unless in accordance with a NPDES permit. For guidance, contact the regional office of the U.S. Environmental Protection Agency.

# STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse empty container. Wrap container and put in trash.
