

**DIRECTIONS FOR USE**

Water freshness may be maintained and algae and slime effectively controlled, with two cupfuls of COASTAL POOL KARE per 2500 gallons of water. This represents an initial treatment after the usual cleaning operation. For follow up treatment, use only one cupful per 2500 gallons of water every four days, and, in hot, sunny weather, every two days.

**DOSAGE TABLE**

Pool Size	Initial Treatment	Follow-up Treatment
100 gallons	1 1/4 tbsps	3/4 tbsps
500 gallons	10 tbsps	3 1/4 tbsps
1000 gallons	20 tbsps	6 1/2 tbsps
5000 gallons	4 cups	2 cups

**FOR OTHER SIZE POOLS, USE PROPORTIONATE QUANTITIES**

To sanitize walls, runways, locker rooms and other areas surrounding swimming pool, use a solution of two ounces of COASTAL POOL KARE to four gallons of water.

**COASTAL**

**SURFACE**

COASTAL POOL KARE

COASTAL POOL KARE is a conditioning agent for keeping wading and swimming pool water sparkling clear and sweet, working effectively to control algae growth and odor. This product combines, in a single operation, the necessary chemicals to treat and maintain pools in tip-top fresh condition. COASTAL POOL KARE is relatively non-corrosive to rubber and metals and may be used on all types of equipment at dilutions of 1:50,000. An outstanding algae growth depressant.
