 FUNGICIDE AND RODENTICIDE ACT
 FOR THE CONTROL OF FUNGICIDES
 EP UNDER 4829-14

DANGER: KEEP OUT OF REACH OF CHILDREN
AVOID CONTAMINATION OF FOOD
SEE SIDE PANEL FOR ADDITIONAL WARNINGS

DIRECTION FOR USE

Iso Kare Tablets are to be used as a disinfectant and algae control in pool water. For initial treatments of swim pools free of visible algae growth, use 4 Tablets of Iso Kare per 1,000 gallons of pool water repeated daily for a period of 4 to 6 weeks. For subsequent use, add 2 Tablets per 1,000 gallons of water daily or as needed as determined by chlorine test kit to maintain a 0.7 to 1.0 ppm (parts per million), residual chlorine. Check water for chlorine content at regular intervals. During extreme heat or with heavy bather load water should be checked every 2 hours. Maintain a pH level of 7.2 to 7.6 for best results. Six Iso Kare Tablets weigh one ounce. For use in wader and splasher pools recommended dosage is at the rate of 3 Tablets per 750 gallons every day.

CHEMICAL PROPERTIES

Contains 35% Available Chlorine, 10.5% Available Na₂O, 3.2% Available P₂O₅

- EASILY SOLUBLE IN ALL POOL WATER
- NO ACID ALKALI BUILD-UP
- LONG-LASTING CHLORINE RESIDUAL
- FORTIFIED WITH WATER SOFTENERS

HAZARD

Measure with clean, dry spoon or scoop. Store in cool, dry place. Keep away from heat, fire, combustible materials, and organic matter. Keep closed when not in use.

Do not get in eyes or on skin. May cause burns or damage to the eyes. May cause irritation. In case of contact, immediately flush skin or eyes with fresh water for at least 15 minutes. For eyes get medical attention. Avoid breathing dust. May be fatal if swallowed. May decompose with evolution of chlorine and equally toxic gases. This product is toxic to fish. Do not discharge effluent into lakes, streams, or ponds. Apply this product only as specified on this label.

POISON

ATTENTION: Call physician. External: Wash with cold water. Internal: Drink raw egg white, milk, or rice gruel.
