

COASTAL CHEMICAL CORP.

COASTAL

algi kare

DIRECTIONS FOR USE

Algae and slime may be effectively controlled by using $5\frac{1}{2}$ ALGI KARE TABLETS per 1,000 gallons of pool water every ~~four~~ days. In hot, sunny weather, use this dosage every two days.

For the first treatment, use 32 tablets for every 1,000 gallons of water. Each time the system is drained and refilled.

CHEMICAL PROPERTIES

control

ALGI KARE TABLETS will eliminate most algae formations and prevent new growth in all types and sizes of pools. They are an outstanding aid in doing away with scumming, slime, and discoloration, and will help eliminate and prevent odors from confined water. They work most effectively at pH levels over 7.0.
