kare
BLAST
pool shock
treatment
for control of algae

NET WT. 4 LBS. AVDP.

WARNING: KEEP OUT OF REACH OF CHILDREN. SEE ANTIDOTE STATEMENT AND OTHER REQUIRED WARNING STATEMENT ON BACK PANEL.

ACTIVE INGREDIENTS:
 Lithium Hypochlorite 29% by Wt.
INERT INGREDIENTS 71% by Wt.
 100%
 Equal to available chlorine content of 33.8% by Wt.

Designed for easy control of algae which causes water to look green and slimy. Simply add these instantly soluble granules to your pool and the algae will begin to be destroyed.

BLAST Pool Shock dissolves quickly with no cloudiness. The instant action of **BLAST** Pool Shock will remedy unsightly algae conditions, without the addition of any other chemicals. Just add directly to the pool water. Dead algae will drop to the bottom of the pool and the unsightly green color of the water will disappear.

For each 1,000 gallons of pool water add 3 1/4 fluid ounces of **BLAST** Pool Shock. This dosage will supply in excess of 7.05 ppm available chlorine which is adequate for super chlorination. Allow several hours for **BLAST** Pool Shock to destroy the algae, preferably overnight. Vacuum or brush the dead algae from the pool bottom, if possible.

Before using the pool again, check chlorine residual with a chlorine pool water test kit. Ideal chlorine residual range is 0.6 to 1.0 ppm. If test indicates chlorine residual is above 1.0 ppm., the pool should remain unused until the chlorine residual drops into the ideal range.

POISON . . . MAY BE FATAL IF SWALLOWED
PRECAUTIONARY INFORMATION

WARNING: Keep Out of Reach of Children. Do not get into eyes or on clothing. Do not store or get in contact with other combustible materials, organic matter, or acids. Store in tightly closed container. Contact with skin may cause irritation. Wash thoroughly immediately after handling. Strong oxidizer. Contact with other material may cause fire. Keep away from heat.

This product is toxic to fish. Do not discharge treated effluent into lakes, streams, or ponds.

ANTIDOTES

EXTERNAL: Wash thoroughly with water. **EYES:** Flush thoroughly with water for 15 minutes. Call physician. **INTERNAL:** Drink mucilage, raw egg white, milk, or rice gruel. Follow with emetic (tablespoonful of mustard in glass of warm water). Call physician.

MADE AND PRINTED IN U.S.A. E.P.A. Reg No. 4829-33 21152 JIHGF
