DIRECTIONS FOR USE

Iso Clor Big Tabs are to be used as a disinfectant and algae control in pool water. For initial treatments of swim pools free of visible algae growth, use 1 Iso Clor Big Tab per 7,500 gallons of pool water. Repeat dosage only if chlorine residual drops below 0.6 ppm (parts per million). Check water for chlorine content at regular intervals. During extreme heat or with heavy bather loads water should be checked every two hours. Maintain a pH level of 7.2 to 7.6 for best results. One Iso Clor Big Tab weighs 5-1/3 ounces. Not recommended for wader and splasher pools.

DANGER

Measure with clean, dry spoon or scoop. Store in cool, dry place. Keep away from heat, fire, combustible materials and organic matter. Keep closed when not in use. Do not get in eyes, on skin or on clothing. May cause burns or damage to the eyes. May cause irritation. Protect eyes when handling. In case of contact, immediately flush skin or eyes with fresh water for at least 15 minutes. For eyes, get medical attention. Avoid breathing dust. May be fatal if swallowed. May decompose with evolution of chlorine and equally toxic gases.
