Attention: Barbara A. Hoffmann
Regulatory Manager

Subject: Boost Pool Shock Treatment
EPA Registration No. 4829-47
Stabilized Chlorinating Concentrated Tablets
EPA Registration No. 4829-69
Your Amendments Dated August 16, 1990

Dear Ms. Hoffmann:

This is in response to your registration amendment submissions for label revisions and updated Confidential Statements of Formula.

The amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable subject to the comments listed below. A stamped copy of each product's labeling is enclosed for your records. Five copies of each product's finished labeling must be submitted before the product is released for shipment.

1. The Statement of Practical Treatment must be on the front panel (rather than just referenced on the front panel).
2. In the Storage and Disposal section, add the following pesticide disposal text (in accordance with PR Notice 83-3):

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

BOOST

POOL SHOCK TREATMENT

FOR SUPERCHLORINATING POOL WATER
AND CONTROL OF ALGAE

ACTIVE INGREDIENT:	
Calcium hypochlorite.....	65%
INERT INGREDIENTS.....	35%
	Total 100%
Available Chlorine.....	65%

ACCEPTED
with COMMENTS
in EPA Letter Dated:

DEC 12 1990

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
4829-47

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for additional
precautionary statements.

NET WEIGHT: 1-3/4 lbs. (28 oz.) 793.8 grams

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Boost! Pool Shock Treatment should be used at spring start-up, once a week, or as necessary to eliminate disconcerting irritation due to formed chloramines in the pool water and to control algae.

Prior to using Boost! Pool Shock Treatment, adjust the pH of the pool water using Coastal pH Minus or pH Plus as necessary, following label directions. Maintain the pH in the range of 7.2 to 7.6. Add 1 to 2 oz. of Boost! Pool Shock Treatment per 1,000 gallons of pool water to yield an available chlorine residual of 5 to 10 ppm (parts per million). Boost! Pool Shock Treatment should be sprinkled over an extensive area of pool water surface, added through a skimmer, or pre-dissolved with the dissolved solution poured over a wide area of pool water surface. Allow the chlorine residual to drop below 2.0 ppm before re-entering the pool. If algae growth is present, brush affected areas with a stiff bristle brush.

For winterizing use, add 0.6 oz. of Boost! Pool Shock Treatment per 1,000 gallons of water, while pool is still clean and clear. Run filter for at least 2 hours. Follow manufacturer's closing instructions.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

IF ON SKIN: Brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Immediately flush with plenty of cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Call physician immediately.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
