Subject: Algaecide & Pool Conditioner  
EPA Registration No. 4829-56  
ALGON 60  
EPA Registration No. 4829-70  
Your Amendments Dated August 6, 1990

Dear Ms. Hoffmann:

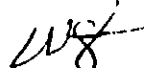

This is in response to your general label revisions and update of your Confidential Statements of Formula.

The amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable subject to the comment below. A stamped copy of the labeling is enclosed for your records. Five copies of the finished labeling must be submitted before the product is released for shipment.

In the statement of Practical Treatment on both labels, delete the words, "drink large quantities of milk, egg whites, or gelatin solution, or if these are not available."

If you have any questions, you may call Wallace Powell at (703) 557-6938.

Sincerely,

Walter C. Francis  
Acting Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (H-7504C)

NET CONTENTS: 1 Gallon (128 fl. oz.) 3.785 liters

CHEMICAL PROPERTIES

Algaecide & Pool Conditioner is compatible with those chemicals normally used to treat pools, and effective at both acid and alkaline pH. Algaecide & Pool Conditioner can be used in pools treated with chlorinating chemicals and may reduce the amount of those chemicals normally required. However, do not mix Algaecide & Pool Conditioner with concentrated dry or liquid chlorinating products.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Algaecide & Pool Conditioner is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using Algaecide & Pool Conditioner.

For pool shaving just visible algae growth, add an initial dose of 75 to 115 fl. oz. of Algaecide & Pool Conditioner per 10,000 gallons of water. Remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add an initial dose of 41 to 75 fl. oz. of Algaecide & Pool Conditioner per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 13.5 to 27 fl. oz. of Algaecide & Pool Conditioner per 10,000 gallons of water should be made every 5 to 7 days after initial treatment.

ACCEPTED  
with COMMENTS  
by EPA Letter Dated:

FEB 11 1991

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended for the  
registered under FIFRA  
4829-56

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. Wear rubber gloves and goggles or face shield when handling. Avoid contamination of food. Remove and wash contaminated clothing before reuse.

---

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, get immediate medical attention. If skin irritation persists, get medical attention. If swallowed, promptly drink large quantities of milk, egg whites, or gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash.
