EPA Registration No. 4829-83  
Tab-A-Day Fast Dissolving Chlorinating 1-1/8 oz.  
Tablets  
EPA Registration No. 4829-84  
Your Amendments Dated August 17, 1990

Dear Ms. Hoffmann:

This is in response to your registration amendment submissions for label revisions and updated confidential Statements of Formula.

The amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable subject to the comments listed below. A stamped copy of each product's labeling is enclosed for your records. Five copies of each product's finished labeling must be submitted before the product is released for shipment.

CONCURRENCES

-- 2 --

1. The Statement of Practical Treatment must be on the front panel (rather than just referenced on the front panel).

2. In the Storage and Disposal section, add the following pesticide disposal text (in accordance with PR Notice 83-3):

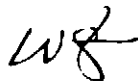

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

3. For each of the subject products, in order to declare 63.0% Trichloro-s-triazinetriene, the Confidential Statement of Formula (CSF) must indicate 63.7% in item 13(b). The percentage inert ingredients must also be revised accordingly, as well as the amounts in 13(a). Submit a revised CSF for each product.

4. In your revised CSFs, make sure to enter upper and lower certified limits in items 14(a) and 14(b). Note that for the active ingredient, the lower certified limit must be the same as the percentage on the label.

If you have any questions about these comments, you may call Wallace Powell at (703) 557-6938.

Sincerely,

Walter C. Francis  
Acting Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (H-7504C)

2 oz. metered  
chlorinating tablets

ACCEPTED  
with COMMENTS  
to EPA Letter Dated:

DEC 12 1990

Under the Fungicide, Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the use of  
registered under EPA Reg. No.  
4829-78

ACTIVE INGREDIENT:

Trichloro-s-triazinetriene.....63.0%  
INERT INGREDIENTS.....37.0%  
Total 100.0%

Available Chlorine.....56.0%

KEEP OUT OF REACH OF CHILDREN  
DANGER

See back panel for additional precautions  
and statement of practical treatment.

NET WEIGHT: 15 lbs. (6.804 kg)

AVAILABLE CHLORINE CONTENT IS 56%

2 oz. Metered Chlorinating Tablets provide effective long lasting protection. Do not add this product directly to pool water or to continuous tablet chlorinating devices. 2 oz. Metered Chlorinating Tablets are intended for addition to the pool skimmer or into a floating dispenser. Do not mix this product with any other chemicals.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

START-UP:

When starting up a reopened or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2 to 7.6. using Coastal pH Plus or pH Minus as indicated by a test kit. Follow label directions of these products.

Superchlorinate by adding one 2 oz. Metered Chlorinating Tablet per 1,000 gallons of water to the pool skimmer with the pump operating. Continue to operate the pump until tablets are dissolved. Repeat this step if necessary to establish a positive chlorine residual of 1.0 to 1.5 ppm (parts per million).

Using Coastal's Chlorine Stabilizer, adjust the cyanuric acid level in pool water to 35 ppm, following label directions.

DAILY:

Add 2 oz. Metered Chlorinating Tablets to the pool skimmer as necessary to maintain a 1.0 to 1.5 ppm (parts per million) chlorine residual. A suggested dosage is one tablet per 8,000 gallons of water. This dosage may vary due to unusual conditions, such as heavy bather loads, wind, heavy rains and high temperatures. Therefore, frequent use of a test kit is recommended as a guide to maintain the chlorine residual at 1.0 to 1.5 ppm and the pH at 7.2 to 7.6

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out of Reach of Children. Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

IF ON SKIN: Brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Immediately flush with plenty of cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Call physician immediately.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
