TAB
A-DAY

PAST DISSOLVING

A Month's Supply of

Chlorinating TABLETS

for: 7,500 Gal. Pools

DANGER: KEEP OUT OF REACH OF CHILDREN.
See additional precautions and first aid statements on back panel.

ACTIVE INGREDIENT: Trichloro-s-triazinone	63.0%
INERT INGREDIENTS:	37.0%
Average Chlorine	68.0%

NET WEIGHT: 3.25 lbs. (1.473 kg)
30 Tablets Approximately 1 1/2 oz. Each

 DIVISION OF COASTAL INDUSTRIES, INC.

HARMFUL TO AQUATIC AND DOMESTIC ANIMALS

DANGER: Harmful to Aquatic and Domestic Animals. May be fatal if swallowed. Do not get it over on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Wash and wash contaminated clothing before reuse.

ENVIRONMENTAL PRECAUTIONS: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with an NPDES Permit. For guidelines, contact the regional office of EPA.

HAZARDOUS AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with clean, dry materials. Do not add this product to any dispensing device containing or treated with any other product. Such use may cause a violent reaction leading to fire or explosion. Contact with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of concentration or decomposition, do not touch the container if possible. Release container in open air or well ventilated area. Flood with large volumes of water if necessary.

FIRST AID TREATMENTS

SKIN: If contacted, wash immediately with large amounts of water. Call a physician immediately. If on skin, wash off exposed chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood with large amounts of water to decrease all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in safe place.

AVAILABLE CHLORINE CONTENT IS 56%

Tab-A-Day Fast Dissolving Chlorinating Tablets provides effective control of bacteria and algae growth in pool water. Do not add this product directly to pool water or to continuous recirculating devices. Tab-A-Day Fast Dissolving Chlorinating Tablets are intended for addition to the pool skimmer or into a floating dispenser. Do not mix this product with any other chemicals.

DIRECTIONS FOR USE

START-UP: When starting up a reopened or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2-7.6. Use Coastal pH Plus or pH Minus as indicated by a Coastal Test Kit. Then Superchlorinate with either Shock Treatment or Stabilized Chlorinating Granules to establish a positive free chlorine residual of 1.0-2.0 parts per million (ppm). Raise the cyanuric acid level, if necessary, to 30 ppm by adding Chlorine Stabilizer, following directions for the product.

DAILY ADD: Add Tab-A-Day Fast Dissolving Chlorinating Tablets to the pool skimmer as necessary to maintain a 1.0-2.0 ppm free chlorine residual. A suggested dosage is one Tab-A-Day tablet per 7,500 gallons (daily). The dosage may vary due to various conditions, such as heavy bather load, wind, heavy rain, and high temperatures. Therefore, frequent use of the test kit is recommended as a guide to maintain the pH at 7.2-7.6 and the chlorine residual at 1.0-2.0 ppm.
