Subject: Iso Chlor II Super Stabilized Chlorinating Tablets
 EPA Registration No. 4829-54
 Tarry Once A Week Chlorinating 2-2/3 oz. Tablets
 EPA Registration No. 4829-86
 Tarry Long-Lasting Chlorinating 1/6 oz. Tablets
 EPA Registration No. 4829-67
 Tarry Long-Lasting Chlorinating 7 oz. Tablets
 EPA Registration No. 4829-74
 Tarry Long-Lasting Chlorinating 7 oz. Sticks
 EPA Registration No. 4829-75
 Your Submission Dated March 25, 1991

Dear Ms. Hoffmann:

This is in response to your revised labeling resubmitted in response to the Agency letter dated December 12, 1990.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments below. A stamped copy of each label is enclosed for your records.

1. The label for EPA Reg. No. 4829-75 must include a net contents statement.

2. Submit five copies of each product's finished labeling before you release the product for shipment.

STATEMENT OF PRACTICAL TREATMENT
(FIRST AID)

IF ON SKIN: Brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Immediately flush with plenty of cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Call physician immediately.

See back panel for additional precautions.

NET WEIGHT: 1.33 lbs. (0.603 kg)
8 Tablets Approximately 2.66 oz. each

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Tarry Once-A-Week Chlorinating 2-2/3 oz. Tablets are to be used as a disinfectant and algae control in pool water. Tablets are intended for use in a tablet dispenser, in-line chlorinator, in-line feeder, or other similar dispensers. In order to receive its maximum effect, use as follows:

1. Superchlorinate the pool water with one of Coastal's fast acting shocks or stabilized chlorinating products, following label directions for that product. Do not enter pool until the chlorine residual drops to 2.0 ppm (parts per million).
2. Using Coastal's Chlorine Stabilizer, adjust the cyanuric acid level in pool water to 35 ppm, following label directions.
3. Adjust the pH to the ideal range of 7.2 to 7.6 with Coastal pH Plus if the pH is below 7.2 or pH Minus if the pH is above 7.6.
4. Suggested weekly dosage is one Tarry Once-A-Week Chlorinating 2-2/3 oz. Tablet per 3,800 gallons of pool water. Add tablets to a floating dispenser, in-line feeder, or similar and adjust the chlorine dispensing rate of feeder to provide a chlorine residual of 1.0 to 1.5 ppm (parts per million). Check water for chlorine content at regular intervals using a reliable test kit.
This dosage may vary, due to unusual conditions such as heavy bather load, heavy rains or high temperatures. If those conditions exist, water should be checked every 2 hours. Maintain a pH of 7.2 to 7.6 for best results.
One tablet weighs 2-2/3 oz. (75 grams) and WILL LAST APPROXIMATELY ONE WEEK DEPENDING ON TEMPERATURE, BATHER LOAD AND AMOUNT OF WATER FLOW.
Tabs should never be thrown directly into pool as they may cause spotting or bleaching. Not recommended for splashers or wader pools.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out of Reach of Children. Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

DANGER: STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
