ATTACHMENT TO EPA REGISTRATION NOTICE

EPA Registration No. 4829-116 Date Issued

44 NOV 1987

Company Name COASTAL INDUSTRIES, INC.

Product Name COASTAL 7-DAY GIANT CHLORINATING TABLETS

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Reg. No. 4829-116. This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.
2. Two copies of the finished printed labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.
3. The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. If the label does not satisfy these requirements it will be rejected.

7-DAY

LONG-LASTING CHLORINATING

3" GIANT TABLETS

BACTERICIDE - ALGAEICIDE - DISINFECTANT

Active Ingredient:

Trichloro-s-triazinetrione.....78%

Inert Ingredients.....22%

Available Chlorine.....70%

KEEP OUT OF REACH OF CHILDREN

DANGER: See additional precautionary and first aid statements on back panel.

NET WEIGHT 15 lbs (6.804 kg)

ACCEPTED
with COMMENTS
in EPA Letter Dated:

NOV 4 1987

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

4829-116

7-Day Long Lasting Chlorinating 3" Giant Tablets

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Coastal 7-Day Giant Tabs are to be used as a disinfectant and for algae control in pool water. They are long lasting and are designed to slowly meter chlorine into pool water.

START-UP: When starting up a reopened or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Adjust and maintain the pH in the range of 7.2-7.6 with Coastal pH Plus or Coastal pH Minus in accordance with label directions. Then, superchlorinate with either Coastal Boost Shock Treatment or Iso Clor Powder to establish a positive free chlorine residual of 1.0-2.0 parts per million (ppm). (Note: Do Not enter the pool until chlorine residual falls below 2.0 ppm.) Raise the cyanuric acid level, if necessary, to 30 ppm with the addition of Coastal Chlorine Stabilizer.

MAINTENANCE: Add one Coastal 7-Day Giant Tab per 9,000 gallons of pool water to a floating dispenser or to an automatic chlorinator every week or as necessary to maintain a 1.0-2.0 ppm chlorine residual.

Check water for chlorine content at regular intervals. During extreme heat or with heavy bather loads, water should be checked more frequently. Maintain a pH level of 7.2-7.6 for best results. One tablet weighs approximately 8 oz. (227 g) and will last approximately one week depending on temperature, bather load and amount of water flow.

Tabs should never be thrown directly into the pool as they may cause spotting or bleaching. Not recommended for wader or splasher pools. **DO NOT ENTER POOL UNTIL CHLORINE RESIDUAL FALLS BELOW 2.0 ppm.**

DANGER: Keep out of reach of children. Corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wash hands after handling.

PHYSICAL AND CHEMICAL HAZARDS

DANGER: STRONG OXIDIZING AGENT. Add only to large volumes of water. Contamination by moisture, organic matter or other chemicals may cause a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Decomposes at 350°-475°F with liberation of harmful gases. In case of decomposition, if possible, isolate container in open air or well ventilated area. Flood with large amounts of water. **DO NOT MIX WITH ANY OTHER CHEMICAL.**

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out of Reach of Children. Corrosive, Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wash hands after handling.

PRACTICAL TREATMENT

FIRST AID: If swallowed, feed gruel, cooked cereal or bread soaked in milk, followed by olive oil or cooking oil. Get Medical Attention. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes, get Medical Attention. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse container. Rinse thoroughly before discarding in trash. Securely wrap original container in several layers of newspaper and discard in trash.
