US ENVIRONMENTAL PROTECTION AGENCY  
OFFICE OF PESTICIDES PROGRAMS  
REGISTRATION DIVISION (TS-767)  
WASHINGTON, DC 20460

EPA REGISTRATION NO.

4829-120

DATE OF ISSUANCE

19 DEC 1987

TERM OF ISSUANCE

NOTICE OF PESTICIDE: ☒ REGISTRATION  
☐ REREGISTRATION

(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration is conditional. Registrants are expected to comply with FIFRA section 3(c)(1)(C) and that you:

1. Submit/collect all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 4829-120" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

COASTAL  
NON-FOAMING 30% ALGAECIDE  
FOR SWIMMING POOLS

EFFECTIVE AGAINST GREEN, BLACK & MUSTARD ALGAE

Non-Foaming	No Discoloration
Non-Staining	No Metals

KEEP OUT OF REACH OF CHILDREN

CAUTION: See back panel for Precautionery and First Aid Statements.

Active Ingredient:

Poly (oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride].....	30%
Inert Ingredient.....	70%

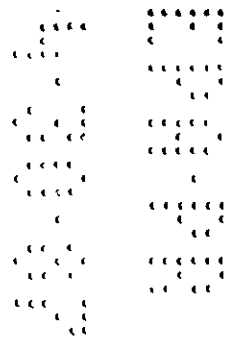

NET CONTENTS: One Quart ( .946 L )

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

DEC 07 1987

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

4829-120

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Coastal Non-foaming 30% Algaecide is used to control the growth of many algae types, including green, black and mustard algae. For treatment of a freshly cleaned and filled pool, add an initial dose of 13 - 24 oz. of Coastal Non-foaming 30% Algaecide per 10,000 gallons of pool water. Pools containing just visible algae growth, should receive an initial dose of 24 - 36 oz. of Coastal Non-foaming 30% Algaecide per 10,000 gals of water. After 24 hours, vacuum pool to remove algae debris. On a regular basis (every 5 to 7 days), use a maintenance dose of 4-9 oz. Non-foaming 30% Algaecide per 10,000 gallons of water. During hot, sunny weather more frequent additions may be necessary.

Coastal Non-foaming 30% Algaecide will prevent the growth of most algae during the off season, when the pool is not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 - 21 oz. of Coastal Non-foaming 30% Algaecide per 10,000 gallons of water. If at the end of the season, the pool has some visible algae growth, add 25 - 37 oz. of algaecide per 10,000 gallons of water. For best results, circulate the pool water, prior to covering the pool for the winter.

Coastal Non-foaming Algaecide is compatible with most chemicals used to treat swimming pools and is effective at both high and low pH levels. Coastal Non-foaming 30% Algaecide may reduce the amount of chlorine and maintenance products required, however, DO NOT mix this product with any other chemical.

PRECAUTIONARY STATEMENTHAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

PRACTICAL TREATMENT

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the EPA.
