Attn: Barbara Hoffmann:

Subject: Coastal Non-Foaming 30% Algaecide
EPA Registration No. 4829-120
Your Amendment of August 6, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. A stamped copy is enclosed for your records. Five copies of the finished labeling must be submitted before you release the product for shipment.

1. In the Net Contents Statement on the product label, quantities which are expressed as less than one (1.0) should have a zero preceding the decimal point. Change your Net Contents Statement to read: 0.946 liters.

2. In the Precautionary Statement of your draft label, revise the "If Swallowed" sentence to read: "If swallowed, promptly drink large quantities of water. Avoid alcohol. Call a physician immediately."

Please also note the following:

The revised, updated Confidential Statement of Formula (CSF), submitted with the amendment package discussed above, agrees with the product label and is acceptable.

If you should have any questions concerning this letter, you may call Robert Travaglini on (703) 557-6909.

Sincerely,

Walter C. Francis
Acting Product Manager (32)

ACTIVE INGREDIENT:

Poly[oxyethylene(dimethyliminio)ethylene (dimethyliminio)ethylene dichloride.....	30%
INERT INGREDIENTS.....	70%
Total	100%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panel for additional precautions
and statement of practical treatment.

NET CONTENTS: One Quart (32 fl. oz.) .946 liters

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Coastal Non-Foaming 30% Algaecide is used to control the growth of many algae types, including green, black and mustard algae. For treatment of a freshly cleaned and filled pool, add an initial dose of 13 to 24 fl. oz. of Coastal Non-Foaming 30% Algaecide per 10,000 gallons of water. Pools containing just visible algae growth, should receive an initial dose of 24 to 36 fl. oz. of Coastal Non-Foaming 30% Algaecide per 10,000 gallons of water. After 24 hours, vacuum pool to remove algae debris. On a regular basis, (every 5 to 7 days), use a maintenance dose of 4 to 9 fl. oz. of Non-Foaming 30% Algaecide per 10,000 gallons of water. During hot, sunny weather, more frequent additions may be necessary.

Coastal's Non-Foaming 30% Algaecide will prevent the growth of most algae during the off season, when the pool is not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 fl. oz. of Coastal Non-Foaming 30% Algaecide per 10,000 gallons of water. If at the end of the season, the pool has some visible algae growth, add 25 to 37 fl. oz. of algaecide per 10,000 gallons of water. For best results, circulate the pool water, prior to covering the pool for the winter.

Coastal's Non-Foaming 30% Algaecide is compatible with most chemicals used to treat swimming pools and is effective at both high and low pH levels. Coastal Non-Foaming 30% Algaecide may reduce the amount of chlorine and maintenance products required. DO NOT mix this product with any other chemical.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes and clothing. ~~Wear rubber gloves and goggles or face shield when handling.~~
Avoid contamination of food. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, get immediate medical attention. If skin irritation persists, get medical attention. If swallowed, promptly drink large quantities of milk, egg whites, or gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash.
