US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 4829-125	DATE OF ISSUANCE OCT 4 1990
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Tarry 6 oz Chlorinating Tablets	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Coastal Industries
 225 Passaic Street
 Passaic, NJ 07055

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 4(c)(7)(B) provided that you:

1. Submit all data required by registration/reregistration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 4829-125" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the 1-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

TARRY

6 oz. CHLORINATING TABLETS

BACTERICIDE/ALGAECIDE/DISINFECTANT

ACTIVE INGREDIENT:

Trichloro-s-triaznetrione.....	99.3%
INERT INGREDIENTS.....	0.7%
	Total <u>100.0%</u>
Available Chlorine.....	90%

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for additional precautions
and statement of practical treatment.

NET WEIGHT: 5.25 lbs. (2.381 kg)

ACCEPTED
with conditions
in EPA List
007-1-1000

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the purpose of
registered under EPA Act
4829-125

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

IF ON SKIN: Brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Immediately flush with plenty of cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Call physician immediately.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

DIRECTIONS FOR USE

it is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Tarry 6 oz. Chlorinating Tablets are to be used as a disinfectant and algae control in pool water. They are long-lasting and intended to slowly meter chlorine into the water. In order to receive maximum effect, use as follows:

1. Super chlorinate the pool water with a shock treatment or other chlorinating product following label directions. Do not enter pool until the chlorine residual drops below 2.0 ppm (parts per million).
2. Using a chlorine stabilizer, adjust the cyanuric acid level of the pool water to 35 ppm according to label directions. This will help to reduce chlorine loss due to sunlight.
3. Adjust the pH to the ideal range of 7.2 to 7.6 using pH adjustment products according to label directions.
4. The pool filter should be properly cleaned and in good working order before using this product.
5. Add one Tarry 6 oz. Chlorinating Tablet per 8,500 gallons of pool water into a floating dispenser or automatic chlorinator every week, or as needed as determined by a chlorine test kit to maintain a 1.0 to 1.5 ppm (parts per million) residual chlorine. Check water for chlorine content at regular intervals. During extreme heat or with heavy bather loads, water should be checked every two hours. Maintain a pH of 7.2 to 7.6 for best results.

One Tarry 6 oz. Chlorinating Tablet weighs approximately 170 grams and will last approximately one week depending on temperature, bather load and amount of water flow. Tablets should never be thrown directly into pool water as they may cause spotting or bleaching. Not recommended for wader or splasher pools.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out of Reach of Children. Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and rubber gloves when handling. Use only thoroughly clean, dry utensils. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.
