

To Kill and Prevent Algae in Pools
ALGAEDYN activates the floor and walls of swimming pools, giving them a residual and continuing algaeicidal action.

Completely effective against black algae and most other types of algae normally found in swimming pools.

ALGAEDYN is tasteless, odorless and non-foaming at pool concentration and may reduce other chemical usage.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Infested Pools/Preventive Treatment/Winterizing

1. Keep filter clean.
2. Keep circulating system in operation during treatment.
3. Keep pH at 7.2.
4. Maintain free chlorine residual at 0.5 to 1.0 part per million as determined by a chlorine test kit.
5. Add Algaedyn into skimmer or beneath surface of water level at filter. A temporary amber color will appear then clear and sparkle.
6. Infested pools should be treated with chlorine water after treatment to remove dead algae material if needed if necessary.

ALGAEDYN DOSAGE

Pool Water	Algae	Preventive Treatment	Winterizing
Infested Pools	Non-Infested Pools	Non-Infested Pools	Freezing
10,000 gal.	1 qt.	1/2 qt.	1 qt.
20,000 gal.	1 qt.	1/2 qt.	2 qt.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters.

DISPOSAL

DO NOT REUSE EMPTY CONTAINER. WRAP CONTAINER AND PUT IN TRASH COLLECTION.

FOR THE CONTROL AND DESTRUCTION OF BLACK AND MUSTARD ALGAE AND ALGAL SLIME

Active Ingredient: Coloidal Silver as Elemental	0.80%
Inert Ingredients	99.20%
	100.00%

Keep out of reach of children.
