DIRECTIONS FOR USE:

For all uses of COW-TENT, apply as a general purpose formulation designed to protect animals, including dogs, cats, horses, from attacks of biting flies in the barn and on pasture, as well as to function as an effective repellent against house flies and other flies in the barn.

Animal spray: To protect horses, dogs, cats, etc., from attacks of biting flies, use two and gnats spray just enough to wet the ends of the ears, the neck, the face, the legs, and the tail. Use enough to treat an adult cow. Apply to the body of the animal, especially the neck, during the day. Repeat at two week intervals.

For use on horses, dogs, cats, etc., use one ounce per animal per week.

Space Spray for Biting Fly Control: To control biting flies in the barn, use the space spray at the rate of one quart per 500 cubic feet of space. Do not treat areas where children are playing or where food is stored.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Use only as directed. Do not use on food or feed. Do not use in areas where children are playing or where food is stored.
