Ms. Katie Koelfgen  
IntAgra, Inc.  
c/o Universal Cooperatives, Inc.  
PO Box 460  
Minneapolis, MN 55440

Dear Ms. Koelfgen:

Subject: Revised Labeling and Confidential Statement of Formula  
SK Surekill Brand Pyrethrin Plus Spray with Vapona  
EPA Registration No. 4866-3  
Your Submission Dated November 13, 1997

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling:

Amvac's DDVP Technical labeling has been revised to only contain uses (and corresponding directions for use) that are being supported by Amvac. Please see the enclosed technical label for more information.

1. Delete the section, "Do not use in food areas of food handling.....is in operation." Your product is not registered for use in food handling establishments.
2. Under Precautionary Statements replace "Wear NIOSH or MSHA approved....." with the following: "Wear a pesticide respirator with either an organic vapor removing cartridge with a prefilter approved for pesticide (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH) approval prefix number TC-14G when applying indoor as a space spray of fog."
4. Under Environmental Hazards add: "Do not apply directly to any body of water."
5. Under "Animal Spray" add the following: "Special care should be used in spraying the legs, belly and shoulders. Avoid areas around the nose, eyes and mouth."

The confidential statement of formula included in the November 13, 1997 submission has been reviewed and is acceptable.

Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca  
Product Manager 13  
Insecticide Branch  
Registration Division (7505C)

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

4866-3

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use this product safely. Read entire label before using.

This is a dual-purpose formula designed to protect dairy and beef cattle from attacks of biting flies in barns and out on the pasture, and also to function as an effective space spray for quick knockdown and kill of flies in barns.

**Animal Spray:**

To protect animals against attacks of stable flies, horn flies, mosquitoes and gnats, apply just enough to wet ends of hairs but not enough to soak the hide. One or two ounces is enough to treat an adult cow. Apply once daily, preferably in morning, for protection during day. Do not make direct application to livestock more frequently than once per day. Repeat daily, or as necessary for continued protection.

Do not apply in excess of two fluid ounces per animal per day. Do not spray udders of lactating dairy animals. For milking dairy animals, apply 20 to 30 minutes before beginning to milk. Do not apply to animals under 6 months of age.

**Space Spray for Barn Fly Control:**

To attain quick knockdown and kill of flies, gnats and mosquitoes in enclosed spaces, spray toward ceiling and corners until space is filled with light mist. Apply at rate of one to two ounces per 1000 cubic feet. Do not treat animals or humans. Do not contaminate water, feed or foodstuffs, milk or milking utensils. Do not use in areas where animals have received direct application within 8 hours.

Remove animals prior to treatment. For best results, close all windows and doors prior to spraying and keep them closed for 10 to 15 minutes after spraying. When used in enclosed areas, do not remain in treated areas after spraying. Ventilate before re-entering.

See other side panel for

Net 100.00%	

**FOR AGRICULTURAL/COMMERCIAL USE ONLY**  
**NOT FOR SALE FOR ANY OTHER USES**

**KEEP OUT OF REACH  
OF CHILDREN**

**CAUTION**

See side panel for **STATEMENT OF PRACTICAL TREATMENT** and additional precautionary statements

Net Contents: 1 Gallon (3.8 liters)

**PRECAUTIONARY STATEMENT**

Hazards to Man and Domestic Animals

**CAUTION:** Harmful if inhaled or absorbed through skin. Avoid inhalation or spray mist. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Wear the appropriate MSHA approved respirator when applying indoor space spray or fog.

Do not contaminate food or foodstuffs. Do not use in areas of food handling, restaurants, restrooms, areas where food is prepared or served. Do not use in service areas where food is exposed while food is in operation.

Do not apply to animals under 6 months of age. B. Brahma Cross cannot be treated, as it shows hypersensitivity to organophosphates.

**Environmental**

This product is toxic to birds and other wild animals. Do not contaminate water. Dispose of equipment and containers properly.

**Physical or Chemical**

Do not use, pour, or store near heat or flame.
