Dear Marty Proops

Subject: Bug Stop Pump Spray
EPA Reg. No. 4866-7
Application dated April 9, 1990

The proposed amendment to the registration of the product cited above under the Federal Insecticide Fungicide and Rodenticide Act removing the active ingredient, MGX R-11, and increasing the amount of another active ingredient is acceptable subject to the comments listed below. A stamped copy of the label is enclosed for your records.

- 1.) Submit a revised Confidential Statement of Formula (CSF) with all items completed including the upper and lower certified limits for the pure active ingredients. Note that the lower limit of the active ingredients must be the same as the amount claimed on the label for the active ingredients.
- 2.) Submit a 1 year storage stability study. The formulated product must be analyzed for its active ingredients at time zero and during a year of storage. The storage must be under warehouse conditions of temperature and humidity using containers similar to those that will be used in the trade. This data must be submitted within 15 months of the date of this letter.
