NAME OF PESTICIDE PRODUCT

Deer Away Big Game Repellent
Powder

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

IntAgra, Inc.
8500 Pillsbury Ave. South
Minneapolis, MN 55420-2291

5475009 $\frac{674}{10}$

5489505 $\frac{675}{22}$

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

The phytotoxicity data submitted indicate that factors other than Deer-Away treatments were responsible for the possible signs of damage seen on plant types other than roses. The situation with roses is addressed appropriately on the proposed revised label submitted on April 26, 1995.

The efficacy data suggest that plants of eight types may have been protected by treatments with this product for periods of at least 6 weeks. These data are consistent with the general claims of repeliency from "ornamentals", "shrubs", and "conifer trees and seedlings" that you have proposed. Because of the product's rather limited effects in deterring deer damage, such as it was, to roses, we would prohibit listing this species specifically as a site were it not for the phytotoxicity issue highlighted elsewhere in the "DIRECTIONS FOR USE".

DATE

SEP 25 1995

Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

Registrants may sell or distribute products bearing old labeling for **one year** after the date of this Notice. **Non-registrants** may sell or distribute products bearing old labeling for **three years** after the date of this Notice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

*** LIMITED GUARANTEE:**

IntAgra guarantees to you, the original purchaser, that DEER-AWAY will perform as promised on the label if the product is applied within one (1) year after the date of purchase. If the product is not effective, send us proof of purchase and a letter of explanation to address below. IntAgra will refund your purchase price if the product was not effective. Refund is our sole obligation under this guarantee. This guarantee shall not apply to any product which is not stored or is not applied in the manner described on the package.

INTAGRA SHALL NOT BE LIABLE FOR ANY DIRECT, CONSEQUENTIAL OR INCIDENTAL LOSS OR DAMAGE.

Some states do not allow exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This guarantee gives you specific rights, and you may also have other rights which vary from state to state.

If any other warranties are implied by law, such warranties shall be limited to the one (1) year period of the above guarantee.

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals

CAUTION

Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

Environmental Hazards

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or waste disposal.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available, by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry storage area inaccessible to children and pets. Keep container closed.

Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Completely empty container. Then dispose of empty container in sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**Stops Deer Damage
Guaranteed***

DEER-AWAY
**Big Game Repellent
Powder**

Repels deer and elk from ornamentals,
shrubs, roses, and conifer trees and seedlings

- Ready to use - No mixing required
- Long-lasting - Resists washing off
- All-natural active ingredient
- Treats 60-72 four-foot ornamental shrubs, or 400-600 conifer seedlings

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See other panel for additional precautionary statements

ACTIVE INGREDIENT:

Powdered Inedible Egg Solids:.....	36.00%
Inert Ingredients:.....	64.00%
Total:	100.00%

Net Weight 16 oz.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

This product may be used to repel deer and elk from ornamentals, shrubs, roses, and conifer trees and seedlings. This product must be used when plants are moist. Do not use this product on edible crops.

APPLICATION DIRECTIONS:

Apply a light dusting of powder to plants while they are moist from light rain or heavy dew. If plants are dry, give them a light misting from a suitable water sprayer before applying powder.

Apply powder to the parts of the plant to be protected from browsing. Do not apply too much powder as the excess will fall to the ground and be wasted.

Take care that the powder in the applicator does not become wet and clog the openings.

To protect against browsing of new growth, apply powder at the onset of browsing, but preferably after bud break and before new shoots exceed 1 inch in length. Do not re-treat new growth.

Roses:

Slight discoloration of petals or leaves may result from the use of this product.

Conifer Trees:

For large trees, apply only to lateral branches within animal's reach. Repeat as needed.

Conifer Seedlings:

If only the terminal whorl is to be protected, apply approximately one gram of powder per seedling. To protect young seedlings from winter browsing, apply repellent before onset of browsing. To protect against spring browsing of new growth, treat wet seedlings after bud break and before new shoots exceed 1 inch in length.

To treat plants in nursery or field just before out-planting. Using one bundle of conifer seedlings at a time, briefly immerse seedling tops in a bucket of water, then dust wet tops lightly with DEER-AWAY powder. Strive to deposit some powder on each seedling. Proceed with planting as usual.

Note: Tying a 12" strip of plastic flagging immediately below terminal buds just prior to treatment may help to protect new growth after bud burst.
