INDCO PF 13 Sanitizer

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger:

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes or skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire/explosion. In case of contamination or decomposition do not reseal container. If possible, locate container in open air or well-ventilated area. Flush with large volume of water if necessary.

NET CONTENTS

4875-18

Active Ingredient:
Sodium Dichloro-s-triazinetrione Dihydrate 25%
Inert Ingredients 75%
Provides 14% available chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER

Only For Sale To, Use or Storage By Service-Persons

Practical Treatment FIRST AID

If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

Indo PF-13 Sanitizer (porous) surfaces of equipment or utensils and utensils.

DIRECTIONS

It is a violation of federal law to use this sanitizer in a manner inconsistent with its label. Prepare a sanitizing solution containing 100 ppm available chlorine. Clean and rinse items such as dishes, glasses, equipment over the surface to be sanitized. Wipe excess away prior to use.

The same solution may be used for sanitizing dishes, glasses, etc. Clean and rinse items well with potable water. The sanitizing solution should be allowed to remain on the surface until the level of chlorine has decreased to 100 ppm available chlorine. Sanitizer should be used in accordance with FDA requirements on food contact surfaces.

STORAGE AND DISPOSAL

Keep product dry. Store in a cool dry place. In case of a fire, flood with large amount of water and discard. Place in a safe area or bury in a safe area.

INDEPENDENCE CHEMICAL CO.

GLOUCESTER CITY, NEW JERSEY 08030

Indo PF-13 Sanitizer is recommended for use on hard (non-porous) surfaces or on dishes, glasses, or food processing equipment or utensils, including dairy and brewery equipment and utensils.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Prepare a sanitizing solution by dissolving 1 oz. or 2 oz. of **Indco PF-13 Sanitizer** per 10 gallons of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2-5 minutes and then wipe excess away. Rinse items and surfaces with potable water prior to use.

The same solution should be used in the feed tank in immersion or spray type machines providing 2-5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step rinse well with potable water and dry. The items are then ready for use. The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained additional **Indco PF-13 Sanitizer** should be added to maintain a minimum concentration of 100 ppm available chlorine.

FDA requires on food contact surfaces not to exceed 100 ppm chlorine and to be allowed to air dry. No potable rinse is required.

STORAGE AND DISPOSAL

Keep product dry in tightly closed containers when not in use. Store in a cool dry, well-ventilated area away from heat or open flame. In case of a decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.
