Fred Binter  
INDCO Inc.  
P.O. Box 109  
Gloucester City, NJ 08030

Subject: INDCO PF-13 Sanitizer  
EPA Registration Number: 4875-18  
Application Dated: May 16, 2007  
Receipt Date: May 22, 2007

Dear Mr. Binter:

The following amendments, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with conditions.

**Conditions:**

1. Separate "It is violation of federal law to use this product in a manner inconsistent with its labeling" statement from the directions for use.
2. Revise the direction of use to state that you must pre-clean surface before sanitizing. The pre-cleaning directions for use must precede the actual use directions on the label.
3. Put spaces between the words "Have the product..." under First Aid statement.
4. Revise the Ingredient statement as follows:

**ACTIVE INGREDIENT:**

Sodium Dichloro-s-triazinetriene Dihydrate.....	25%
Other Ingredients.....	<u>75%</u>
Total.....	100%

Provide 13.8% available chlorine.

2/3

**General Comment:**

A Stamped copy of the accepted with condition label is enclosed for your records.

Should you have any question concerning this letter, please contact Wanda Henson at (703) 308-6345.

Sincerely

A handwritten signature in black ink, appearing to read "Wanda Henson", with a long horizontal stroke extending to the right.

Antimicrobials Division (7510P)

Indco PF-13 Sanitizer is recommended for use on hard (non-porous) surfaces or on dishes, glasses, or food processing equipment or utensils, including dairy and brewery equipment and utensils.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Purchaser must be able to use Chlorine Test Kit to make sure available chlorine level does not fall below 50 ppm or above 100 ppm. Prepare a sanitizing solution by dissolving 1 oz. of Indco PF-13 Sanitizer per 10 gallons of water. This gives a solution containing 100 ppm available chlorine. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2-5 minutes. The same solution should be used in the feed tank in immersion or spray type machines providing 2-5 minutes contact time for sanitizing dishes, glasses, food processing, equipment and utensils. Clean and rinse items prior to sanitizing. The items are then ready for use. The sanitizing solution should be used promptly after mixing.

**CHEMICAL HAZARDS**

Danger: Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, organic matter or other chemicals (including pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire explosion. Avoid any contact with flaming or burning material, such as a lighted cigarette. Indco PF-13 decomposes at 460 ° - 500 ° F with liberation of heat and harmful gases. Do not use Indco PF-13 in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

**Net Contents: 6/5 lbs.**

**For Industrial Use Only**

**KEEP OUT OF REACH OF CHILDREN  
DANGER  
FIRST AID**

<b>If in Eyes:</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.
<b>If on Skin or Clothing:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
<b>If Swallowed:</b>	Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
<b>If Inhaled:</b>	Move person to fresh air. If person is not breathing call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 800-255-3924 for emergency treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**STORAGE AND DISPOSAL**

Keep product dry in tightly closed containers when not in use. Store in a cool dry, well-ventilated area away from heat or open flame. Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance. Do not reuse empty container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. Dispose of drum in the same manner.

**EMERGENCY HANDLING**

In case of contamination or decomposition of product, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

Danger: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield, use rubber gloves, and use only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARD**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.

**ACCEPTED  
with COMMENTS  
EPA Letter Dated:**

**JUL 12 2007**
