OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

DEC 11 2014

Mr. Frederick Binter, Jr., President  
Indco, Inc.  
Post Office Box 109  
North Railroad & Essex Street  
Gloucester City, NJ 08030

Subject: FQPA 332: Minor Label Changes per PR Notice 2007-4  
**Indco PF-13**  
EPA Registration Number: **4875-18**  
Application Date: November 7, 2014  
Application Receipt: November 18, 2014

Dear Mr. Binter:

This acknowledges receipt of your Notification application, submitted under the provisions of FIFRA 3(c) 9 and PR Notice 98-10.

Purpose of the Notification:

The notification is to adjust the storage and disposal language to reflect the language required in PR Notice 2007-4. This product is sold in 2 sizes: #100 fiber drum with plastic liner and #5 plastic jar. No other changes are being made to the label.

General Comments:

Based on the review of the information submitted, the following comments apply.

The Notification is **Acceptable**.

A copy of the accepted Notification is attached in **Regulatory File Jacket 4875-18** for future reference.

If you have questions or concerns with regard to this Agency Letter, please contact me by email at [Swift.Killian@epa.gov](mailto:Swift.Killian@epa.gov) by telephone at **703-308-6346**. When you are submitting information or data in response to this Agency Letter, please send a copy of this Agency Letter with your response in order to facilitate processing.

Sincerely yours,

Demson Fuller  
EPA Product Manager 32

Indco PF-13 is recommended for use on hard (non-porous) surfaces or on dishes, glasses, or food processing equipment or utensils, including dairy and brewery equipment and utensils.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Purchaser must be able to use Chlorine Test Kit to make sure available chlorine level does not fall below 50 ppm or above 100 ppm. Prepare a sanitizing solution by dissolving 1 oz. of Indco PF-13 per 10 gallons of water. This gives a solution containing 100 ppm available chlorine. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2-5 minutes. The sanitizing solution should be used on hard (non-porous) surfaces, food processing equipment and utensils. Clean and rinse items prior to use. The sanitizing solution should be used promptly after mixing.

### PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield, use rubber gloves, and use only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, bays or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems with no pretreatment prior to local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### CHEMICAL HAZARDS

Danger: Strong oxidizing agent. Use only clean, dry utensils. Contamination with moisture, organic matter or other chemicals (including pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire or explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette. Indco PF-13 decomposes at 450-500°F with liberation of heat and harmful gases. Do not use Indco PF-13 in any chlorinating device which has been used with any inorganic or unsaturated chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

## INDCO PF-13 Sanitizer

### Powdered Chlorinated Sanitizer

#### DANGER

#### KEEP OUT OF REACH OF CHILDREN

SEE ADDITIONAL PRECAUTIONS ON SIDE PANEL

#### ACTIVE INGREDIENT:

Sodium Dichloro-s-triazinetrione Dihydrate ..... 25%

INERT INGREDIENTS ..... 75%

Total ..... 100%

Provides 13.8% available chlorine.

EPA Reg. No. 4875-18

EPA Est. No. 4875-NJ-1

Net Contents: 100 lbs.

**STORAGE AND DISPOSAL**  
Non-refillable container. Do not reuse or refill this container. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then offer for recycling if available or dispose of in a sanitary landfill or by incineration.

**EMERGENCY HANDLING**  
In case of contamination or decomposition of product, do not reseat container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

#### FIRST AID

If in eyes	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If swallowed	• Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**STORAGE AND DISPOSAL**  
Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse container as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/2 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or purchase and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

#### EMERGENCY HANDLING

In case of contamination or decomposition of product, do not reseat container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.
