## CHEMICAL PROPERTIES

CONTAINS 35% AVAILABLE CHLORINE  
EASILY SOLUBLE IN ALL POOL WATER  
NO ACID OR ALKALI BUILDUP • LONG LASTING CHLORINE RESIDUAL  
FORTIFIED WITH WATER SOFTENERS

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Iso Clor Super Stabilized Chlorinating Tablets are for use as a disinfectant and for algae control in pool water. For treatment of freshly filled pools or for superchlorination of water free of visible algae, add 12 to 24 Iso Clor Super Stabilized Chlorinating Tablets per 1,000 gallons of pool water to a floating dispenser. After this treatment, bathers should not be allowed to enter the pool until the chlorine residual falls to 2ppm (parts per million) or less. For subsequent treatments, add 4 Iso Clor Super Stabilized Chlorinating Tablets per 1,500 gallons of pool water, or as needed to maintain a chlorine residual of 1 to 2ppm. Increased dosages may be required during periods of heavy rainfall, extreme heat, or high bather load. Add Coastal Chlorine Stabilizer to freshly filled pools, or if the cyanuric acid content in the pool is less than 35 ppm. Maintain the pH of the water in the range of 7.2 to 7.6, with the addition of Coastal pH Plus if the pH is below 7.2 and addition of pH Minus if the pH is above 7.6. Monitor the pH and chlorine levels of the swim pool water daily with a Coastal Test Kit. Six tablets weigh approximately 1 ounce. Do not mix with any other pool chemical.

## STATEMENT OF PRACTICAL TREATMENT

**FIRST AID:** If on skin, brush off excess chemical and flush skin with water for at least 15 minutes. If irritation persists, get medical attention. If in eyes, immediately flush with cold water for at least 15 minutes. Get immediate medical attention. If inhaled, remove person to fresh air. Get immediate medical attention. If swallowed, promptly drink large quantities of water. DO NOT induce vomiting. Call Physician immediately.

## PHYSICAL AND CHEMICAL HAZARDS

**DANGER: STRONG OXIDIZING AGENT.** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary to dissolve all material before discarding.

## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your regional office of the E.P.A.

## STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding in trash. Do not reuse empty container. Rinse thoroughly before discarding in trash. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
