

USDA No. 4876-10

DIRECTIONS FOR USE

Follow all Directions Closely, Read entire label and caution statement before use.

VEGETABLES: Tomatoes — To control red spiders and aphids add one tablespoon per gallon of water and thoroughly spray plants as needed for insect control. Make no application on tomatoes later than one day before harvest.

BEANS: (Lima, Green, Snap and String) To control Mexican bean beetles, aphids, leafhoppers, and red spiders, mix 1 tablespoon per gallon of water and spray plant thoroughly when insects first appear. Make two or more applications as needed for control. Make no application on beans later than one day before harvest.

POTATOES: For aphid, leafhoppers and mealy bugs, mix 1 tablespoon per gallon of water and spray foliage thoroughly as insects appear. Repeat as needed for control.

CABBAGE, BROCCOLI, KALE, MUSTARD, AND TURNIPS: For the control of aphids, imported cabbage worms, and cabbage loopers, mix 1 tablespoon per gallon of water making full coverage to plants, repeating as necessary. Make no application to cabbage, kale and mustard within 7 days of harvest, or to broccoli and turnips within 3 days of harvest.

ORNAMENTALS — Roses, Evergreens, Flowering Shrubs and Flowers. To control aphids, red spidermites, mealy bugs, wooly aphids, bagworms, rose leafhoppers, use 1 tablespoon per gallon of water, spray thoroughly covering both upper and lower leaf surfaces, and other infected plant parts. Repeat as necessary.
