

LXAP 10

TIME: 10 AM - 10 PM, 10 days after treatment. **Livestock Posts**

TIME	POSTS	PER ACRE
10 AM	1 part oil + 1 part water	100.00
10 PM	1 part oil + 1 part water	27.00
10 AM	1 part oil + 1 part water	4.00
10 PM	1 part oil + 1 part water	<u>10.00</u>

TIME: 10 AM - 10 PM, 10 days after treatment. **Livestock Posts**

TIME: 10 AM - 10 PM, 10 days after treatment.

SMALL PELLS (wheat, rye, rye grass) or CLOVER: Broadcast spray thoroughly at rate of 1 part oil + 1 part water to five gallon coverage. Use the higher dosage when first spraying. When vegetation is thick and tall. Do not feed treated hay to animals until 10 days after spraying for slaughter.

CORN, WHEAT, RYE AND BARLEY: Broadcast spray at rate of 1 quart per acre, when spray is concentrated enough to form a good coverage. When spraying wheat, rye, rye grass, barley, corn, or other grain water for seed coverage. Do not feed treated grain to animals being finished for slaughter.

GRASS FIELD PROTECT: Do not spray treated areas to early spring and fall grazing areas at rates of 2 parts oil + 1 part water to 10 gallons as grassy pastures are prone to fire. Do not spray areas where dairy animals or animals being finished for slaughter will graze. Birds feeding on treated areas are likely to die.

LIVESTOCK SPRAY: Broadcast spray at rate of 1 part oil + 1 part water thoroughly using 1 quart per 10 gallons of water. Do not feed treated animals being finished for slaughter until 10 days after spraying.

TABLE TYPE WICK & PELLS: Broadcast spray at rate of 1 part oil + 3 gallons of light oil. Do not use animal manure on treated areas treated within 24 days of slaughter.

CAUTION: Do not breathe spray or mist. Do not eat if swallowed. Do not eyes, on skin, or on clothing. Do not store near food, drink, soap, or soap and water after handling and before eating or drinking. Wash hands daily. Do not apply or allow to drift into areas occupied by beneficial animals.

This product is toxic to birds and wild life. Keep out of rivers, streams, and ponds. Apply this product only as specified on its label. Rinse equipment used to spray and dispose of waste by burying in non-crop lands away from water supplies. Do not burn containers by puncturing holes in them and burying with waste material.
