

DIRECTIONS FOR USE

CATTLE GRUBS & SARCOPTIC MANGE — Sprinkle dust generously along the infested areas and rub in with a brush. Make first treatment when symptoms first appear. Repeat at 20 day intervals through winter and early spring. Do not apply within 30 days of slaughter. Do not apply to animals under 3 months of age. The treatment of sarcoptic mange and cattle grubs are to be applied to beef cattle. Do not use this product on dairy animals.

LICE — TICKS — FLEAS on beef cattle, hogs, horses and dogs, dust directly on animals and rub into hair. Make certain of good coverage on infested areas. Dust animals, bedding, runways, and other places where insects may hide or breed. Repeat at 20 day intervals if needed. Do not apply to cats, or humans. Do not apply within 30 days of slaughter. Do not treat sows within two weeks of farrowing nor for at least three weeks thereafter.

CAUTION:

Avoid breathing of dust. Wash thoroughly after handling. May cause irritation of nose and throat. Avoid prolonged contacts with skin. Do not dust on feed or feed containers. Do not apply to animals under 3 months of age.

Containers should be disposed of by punching holes in them and burying with waste, or by burning. Keep out of smoke. Do not reuse
