**CAUTION: KEEP OUT OF REACH OF CHILDREN.**  
(SEE CAUTION ON SIDE PANEL)

ACTIVE INGREDIENTS:  
Warfarin (3-(4-a-cetyloxyphenyl)-  
4-hydroxycoumarin) ..... 0.025%  
INERT INGREDIENTS: ..... 99.975%  
100.00%

Manufactured for  
**STEPHENSON CHEMICAL CO., INC.**  
COLLEGE PARK, GEORGIA

Use 1 lb. of  
control a

Net Wt. ....

**WARFARIN RAT BAIT  
PELLETS**

**GENERAL DIRECTIONS**

Place bait in locations where rats and mice feed, water or travel. Bait placements along walls, in corners, and in concealed locations where rats and mice can feed undisturbed are desirable. Bait should be placed in locations not accessible to children, pets, wildlife, and domestic animals or in tamper-proof boxes. Where a continuous source of infestation is present (nearby dumps), permanent bait stations should be established and replenished as needed. **NOTE**, Baits that are sour, moldy or otherwise decomposed should be replaced promptly.

**RAT CONTROL**

Place 4 oz. to 1 lb. of STEPHENSON CHEMICALS WARFARIN RAT BAIT where rats are known to feed or travel. Baiting must be continuous until complete lack of feeding is noticed, USUALLY 10 TO 14 DAYS. NEVER LET A BAIT STATION REMAIN EMPTY MORE THAN 48 HOURS.

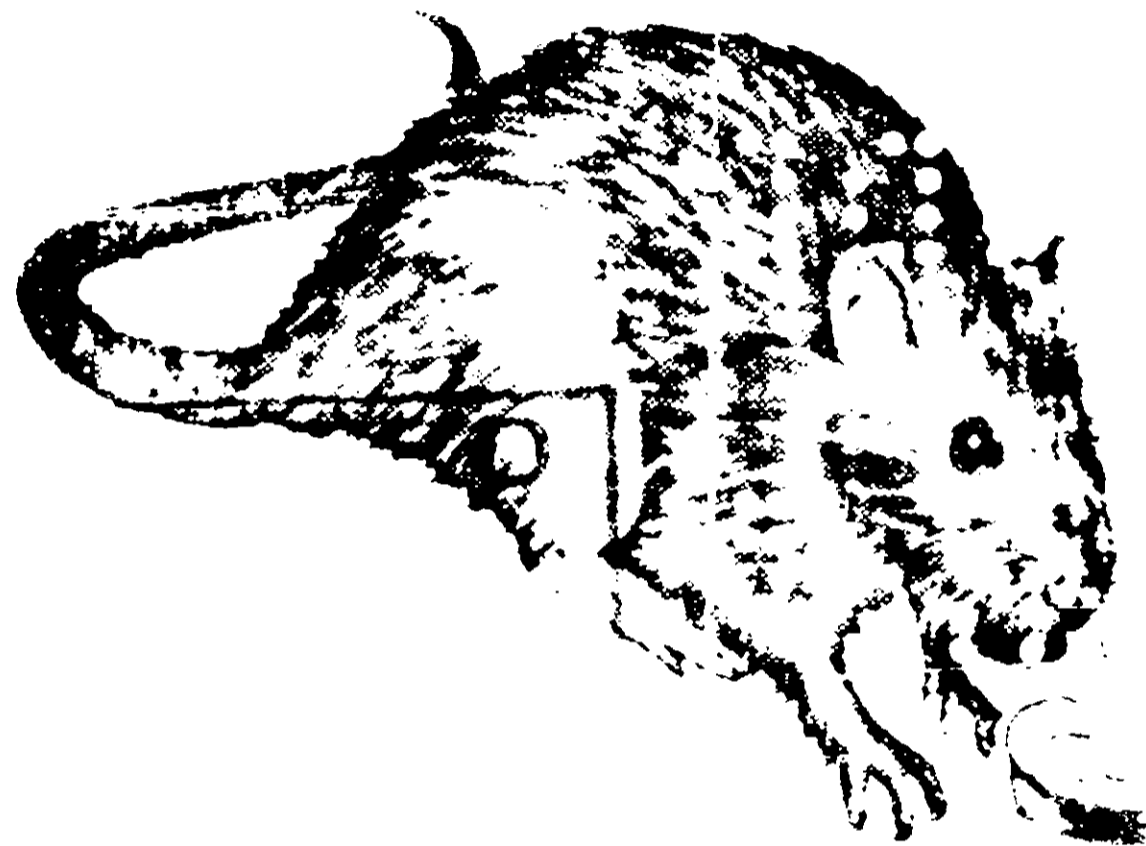

**MOUSE CONTROL**

Use 1 or 2 tablespoons of bait at various 8 to 12 ft. intervals for control of mice. Make sure that bait is available for at least 15 days.

**CAUTION:** (SEE CAUTION ON SIDE PANEL)

KILLS RATS and MICE

CAUTION: KEEP OUT OF REACH OF CHILDREN.  
SEE LABEL

**CAUTION**

THE ACTIVE INGREDIENT, WARFARIN, IS AN ANTI-COAGULANT CHEMICAL WHICH MAY CAUSE SERIOUS HEMORRHAGE IN HUMANS, PETS, WILDLIFE, OR LIVESTOCK. IF EATEN, GIVE A TABLESPOON OF SALT IN A GLASS OF WARM WATER AND REPEAT UNTIL VOMIT FLUID IS CLEAR. CALL A PHYSICIAN IMMEDIATELY.

**NOTE FOR PHYSICIANS**

In case of ingestion of WARFARIN, blood transfusions combined with intravenous injections and oral doses of Vitamin K are indicated as in the case of hemorrhage caused by overdoses of Dicumarol.
