

[4887-40]

DIRECTIONS

FLEAS - Apply lightly into hair near skin. Kills fleas by contact when they crawl through treated areas. Sprinkle on bedding to kill newly emerged fleas.

LICE - Apply lightly to cover infested portions of animal, paying particular attention to ears and long hair on tails. Repeat after 10 days or when needed to kill young lice that hatch from eggs.

FLIES AT WINDOWS - Dust sills of windows liberally to kill flies that are attracted to light of glass. Useful in windows of dairy barns.

ROACHES and ANTS IN KITCHENS - Dust in drawers of cabinets, near sink and in crevices to kill ants and roaches that visit these places. Apply to ant trails wherever found in the house.
