

STATEMENT OF PRACTICAL TREATMENT

- If swallowed:** Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.
- If inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.
- If on skin:** Remove contaminated clothing and wash affected areas with soap and water.
- If in eyes:** Flush eyes with plenty of water. Call a physician if irritation persists.
- Antidote:** Atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (AND DOMESTIC ANIMALS) CAUTION

Harmful if absorbed through the skin. Do not contaminate feed or foodstuffs. Do not apply to animals. Use as a coarse wet spray. Avoid breathing spray mist. Keep out of reach of children and pets. Do not scatter where poultry feed or where animals can lick dry bait or sprayed surfaces. Not for use in homes or where milk is stored or processed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Birds feeding on treated areas may be killed. Do not apply directly to lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

Chemicals

FLY BAIT

Sugar Base with DDVP

USE ON OUTSIDE OF INDUSTRIAL PLANTS,
RESTAURANTS AND DWELLINGS AT
GARBAGE OR REFUSE COLLECTION
AND DISPOSAL AREA.

USE IN AND AROUND DAIRY BARNS,
POULTRY HOUSES, HOG FARMS.

ACTIVE INGREDIENTS

*2,2-Dichlorovinyl Dimethyl Phosphate 0.47%

*Related Compounds 0.03%

INERT INGREDIENTS 99.50%

TOTAL 100.00%

*Equivalent to 0.5% by wt. of Technical DDVP

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Side Panel for Additional Precautionary Statements.

MANUFACTURED BY

STEPHENSON CHEMICAL CO., INC.
COLLEGE PARK, GEORGIA

Net Wt: 1 Lb.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DRY BAIT—As a dry bait, sprinkle lightly in areas where flies congregate. Use about 4 oz. per 1000 sq. ft. A faster kill may be achieved if applied to a moistened surface.

WET BAIT—As a liquid bait, dissolve one pound of dry bait in a half gallon of water. Spray on walls, paint on sills, or use to make bait stations. For heavily infested farm buildings, bait stations can be made by placing 4 inch squares of paper toweling or other absorbent material on a rodent bait container or a board. Then soak with Fly Bait. Bait stations should be placed at about 15 foot intervals. Do not use as a spray in dairy barns.

Economy hint—When liquid bait stations become dry, try dampening them with plain water. Usually this will revive the bait and make it usable another day.

After flies have been brought into control, treatment should be repeated at weekly intervals, or when needed.

STORAGE AND DISPOSAL

1. PROHIBITIONS

Do not contaminate water, food, or feed by storage or disposal.

2. PESTICIDE DISPOSAL

Pesticide spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

3. CONTAINER DISPOSAL

Plastic: Triple rinse (or equivalent) and offer for recycling or reconditioning or dispose of in a sanitary landfill or by incineration if permitted by State and local authorities.

Fiber Drums with Liners: Dispose of liners according to approved Federal, State or local procedures under the Resource Conservation and Recovery Act. Dispose of container in a sanitary landfill or by incineration if permitted by State and local authorities.
