

## DIRECTIONS

Paradichlorobenzene produces a heavy gas which penetrates through fabrics to kill all moth life. It is harmless to the most delicate fabric. Use at a rate of 1 pound for each 100 cubic feet of tightly confined storage space. Articles to be stored should be cleaned or thoroughly brushed.

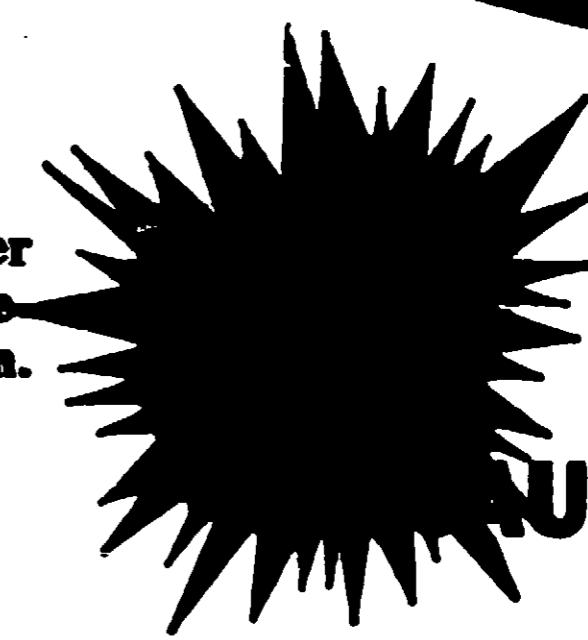

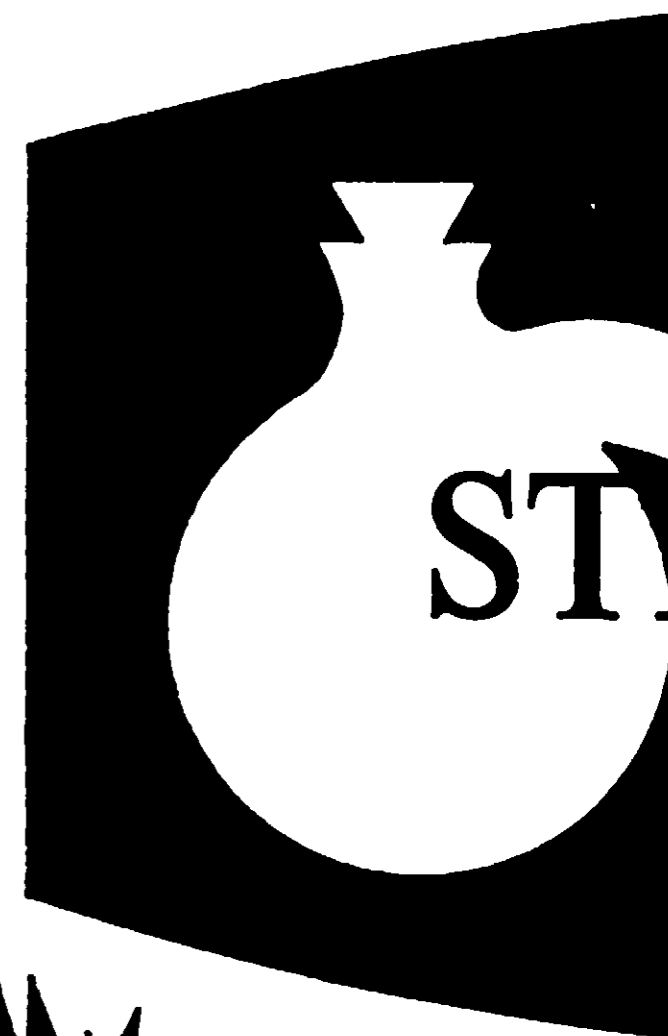

For Clothing, Blankets, Draperies, Furs, etc., sprinkle paradichlorobenzene freely on bottom of storage space, between folds and layers of articles and an extra amount on top before closing container. Be sure storage space is tightly sealed.

## CONTAINER DISPOSAL

Do not reuse empty container. Destroy it by perforating or crushing. Bury in a safe place away from water supplies.

## CAUTION

Paradichlorobenzene should not be mixed or placed in contact with other moth preventive chemicals. Avoid prolonged breathing of vapor or repeated contact with skin. Harmful if swallowed. Keep away from children.
