DIRECTIONS

IMPORTANT—SPRAY, PAINT, OR APPLY TO SURFACES UNTIL DAMP OR WET.

Avoid a vapor type spray—"ROACHES BEWARE" does not have to be sprayed directly on insect. It kills by "contacting" the insect as it crawls over the coating. Death is not instantaneous, but sometimes takes a few hours. More important, it provides long-lasting effectiveness. Spray infested areas only.

ROACHES, ANTS, WATERBUGS, SILVERFISH:

Spray heavily in all cracks, around baseboards and other places where these insects hide. Also spray until wet, surface behind and beneath cabinets, refrigerators, sinks, stoves, etc. Use on other localized areas infested with these pests. Repeat as necessary.

U.S.D.A. REG. # 4913-2

For Effective Roach Control

Also Kills Waterbugs, Ants, Silverfish,

ACTIVE INGREDIENTS:	100.000%
..... 0,0 diethyl 0-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate	0.500%
Petroleum hydrocarbons	99.500%

UNITED SPRAYING SERVICE, INC.
705 Olive St. St. Louis 1, Mo.

CAUTION: Harmful if swallowed. Keep out of reach of children. Avoid contamination of feed and foodstuffs. Avoid repeated or prolonged inhalation and skin contact; wash thoroughly after using. Do not use on household pets or humans. Cover or remove aquaria from areas to be treated.

WARNING: Do not spray into or near fire or open flame. Do not smoke while spraying or using. Do not spray directly on asphalt, rubber, or plastic tile, siding, or other asphaltic materials, as this liquid will tend to soften and discolor them. Do not spray near canaries, parakeets, or any form of bird life.

Because this product is used under conditions beyond our control, it is impossible for seller to make any warranty of any kind concerning it.
