# MALATHION

## PREMIUM GRADE

# Grain Protectant Dust

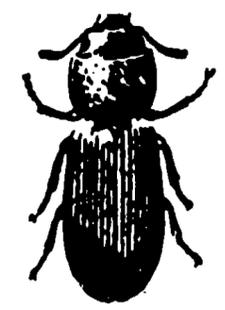

<b>ACTIVE INGREDIENT:</b>		
Malathion*	-----	1.00%
<b>INERT INGREDIENT:</b>		
Wheat Flour	-----	99.00%
	<b>TOTAL</b> -----	<b>100.00%</b>

\*0,0-dimethyl dithiophosphate of diethyl mercaptosuccinate

EPA REG. NO. 4931-66

**RED FLOUR BEETLE**  
1/4" long

**CADELLE**  
Adult 1/2" long

### PROTECTS GRAIN FROM BUGS

**FOREIGN GRAIN BEETLE**  
1/16" long

**BEETLE**  
1/16" to 1/8" long  
FLAT GRAIN

**GRANARY WEEVIL**  
3/16" long

**RICE WEEVIL**  
3/16" long

**SAWTOOTHED GRAIN BEETLE**  
1/8" long

**INSECTS CONTROLLED**

FOREIGN  
GRAIN BEETLE  
1/16" long

BEETLE  
1/16" to 1/8" long  
FLAT GRAIN

GRANARY WEEVIL  
3/16" long

RICE WEEVIL  
3/16" long

SAWTOOTHED  
GRAIN BEETLE  
1/9" long

#### INSECTS CONTROLLED

GOOD-LIFE MALATHION GRAIN PROTECTANT DUST is especially formulated to control insects infesting bulk stored seed or grain. The following insects are controlled when directions are followed:

Granary Weevil  
Lesser Grain Borer  
Indian Meal Moth  
Angoumois Grain Moth

Red Flour Beetle  
Saw-toothed Grain Beetle  
Flat Grain Beetle  
Confused Flour Beetle

Hairy Fungus Beetle  
Foreign Grain Beetle  
Rice Weevil  
Cadelle

#### DIRECTIONS FOR USE:

For the protection of stored grain, such as wheat, oats, rice, corn, rye, barley, grain sorghum, unshelled peanuts, and field or garden seeds against confused flour beetle, rice weevil, granary weevil, sawtoothed grain beetle, flat grain beetle, red flour beetle, rusty grain beetle, lesser grain borer, and Indian Meal Moth, apply GOOD-LIFE MALATHION GRAIN PROTECTANT DUST to the grain. APPLY GOOD-LIFE MALATHION GRAIN PROTECTANT DUST at the rate of 60 pounds per 1000 bushels, as the grain is being loaded or turned into final storage.

Field and garden seeds can be protected with GOOD-LIFE MALATHION GRAIN PROTECTANT DUST at 30 pounds of Dust for each 500 bushels of seed.

On the farm, GOOD-LIFE MALATHION GRAIN PROTECTANT DUST can be added to filled combine hoppers. For example, if a hopper holds 50 bushels, 3 pounds of GOOD-LIFE MALATHION GRAIN PROTECTANT DUST would be added. By the time the grain has reached final storage, the GOOD-LIFE MALATHION GRAIN PROTECTANT DUST will be well distributed throughout the grain.

To protect stored grains from attack by Indian Meal Moth, apply GOOD-LIFE MALATHION GRAIN PROTECTANT DUST to the surface of clean or uninfested grain, at the rate of 30 pounds per 1000 square feet of grain surface area. Apply immediately after grain is loaded into storage, and repeat if necessary.

#### NOTICE:

Please keep in mind that GOOD-LIFE MALATHION GRAIN PROTECTANT DUST is a grain protectant. Grain that is infested with grain insects, should be thoroughly fumigated to kill the live insects, prior to using the DUST.

#### NOTICE:

Pursuant to regulations set down by the U.S. Department of Agriculture, the only formulations of Malathion that may be used on or around stored grain, are those that are formulated with Premium Grade Malathion. This is a more highly refined grade of Malathion, and helps to avoid the possibility of objectionable odor or taste when the wheat is used for flour. DEALERS SHOULD NOT SELL THIS PRODUCT EXCEPT IN THE ORIGINAL SEALED PACKAGE.

#### CAUTION:

Use of this material in a manner or at a time other than in accordance with directions, may produce plant injury, excessive residues, or other undesirable results.

Harmful if swallowed. Avoid breathing of dust. Avoid contact with skin. Wash thoroughly after using. Avoid contamination of feed and foodstuffs. Keep out of reach of children.

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes. Malathion may cause cholinesterase inhibition. Atropine is antidotal.

#### NOTICE:

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
