PROLIN PROLIN REDI-NIPS PROLIN

NEW, IMPROVED, READY TO USE **REDI-NIPS®**

1 lb. ONLY

REDI-NIPS

If you've tried the rest . . . Now use the best . . .

Against Rats—

DIRECTIONS

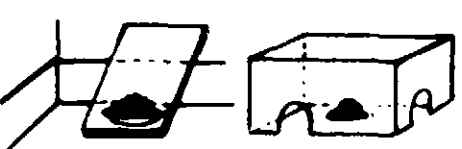

Place tablespoonsful of the PROLIN REDI-NIPS contents of this container in each location frequented by rats, i.e. near holes, burrows and runways.

Against Mice—

Place teaspoonsful of PROLIN REDI-NIPS on cardboard or in small, open containers about the premises frequented by mice, i.e. near walls, corners and beneath sinks and appliances.

Bait Stations—

To protect PROLIN REDI-NIPS set out beneath a plank placed diagonally against a wall, or beneath an inverted box having 2" to 3" cut-outs.

GENERAL

To insure proper control, generous and continuous PROLIN REDI-NIPS baiting should be employed until lack of feeding is noted, usually 5 to 14 days. To control these rodents in premises continuously, periodic baiting every few months is recommended. Always replace baitings as they are consumed and increase the number of baitings (or bait stations) as required by rodent infestation and ready consumption of bait. In locations adjacent to areas of large infestations, maintain continuous and permanent bait stations. Replace sour, moldy or otherwise decomposed baits promptly.

CAUTION: Keep container closed when not in use. Protect and keep baits out of reach of children, pets and domestic animals. In case of accidental ingestion by humans, call a physician. Treat as for an overdose of Dicumarol.²

Manufactured by NIP-CO MFG. INC., 200 Main St., New Rochelle, N.Y. 10802

Distributed in Canada by NIP-CO MFG. LTD., Toronto 18, Ontario

GENERAL

PROLIN REDI-NIPS is a powerful anticoagulant rodenticide and insecticide. It is effective against all species of rats and mice. It is also effective against cockroaches, silverfish, and other aquatic insects. PROLIN REDI-NIPS is a long-acting poison that kills rodents and insects by interfering with their blood clotting mechanism. It is safe for use around humans and domestic animals. PROLIN REDI-NIPS is available in a ready-to-use form that is easy to apply. It is also available in a concentrate form that can be diluted for use. PROLIN REDI-NIPS is a registered trademark of NIP-CO MFG., INC.
