OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

May 27, 2015

Cindy Valla Regulatory Coordinator West Agro®, Inc. 11100 N. Congress Avenue Kansas City, MO 64153

Subject: Label Amendment – Revised Ingredient Statement (Change of iodine complex)

Product Name: Clean Front® Concentrate EPA Registration Number: 4959-13 Application Date: January 30, 2015

Decision Number: 500515

Dear Ms. Valla:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

with FIFRA section 6. If you have any questions, please contact Srinivas Gowda by phone at 703-308-6354, or via email at gowda.srinivas@epa.gov.

Sincerely Yours,

Demson Fuller

EPA Product Manager 32 Regulatory Management Branch II Antimicrobials Division 7510P

Enclosure: EPA Stamped Label

CLEAN FRONT® CONCENTRATE is a high quality iodophor, comprised of iodine and non-ionic surfactants. It is specifically formulated to provide superior chemical and physical stability in finished products. As a result, it is often possible to reduce the amount of over-formulation in finished products.

Made from biodegradable detergents. CLEAN FRONT® CONCENTRATE should be formulated with additional detergents which are themselves biodegradable. This product contains no phosphates.

CLEAN FRONT® CONCENTRATE is sold subject to invoice terms and is for the production of environmental sanitation products only.

#### PRECAUTIONARY STATEMENT: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER. Corrosive. Causes irreversible eve damage or skin burns. Harmful if swallowed or absorbed through skin or inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID	
If in Eyes::	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.
If on Skin:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
If Swallowed:	Call a Poison Control Center or doctor for treatment advise. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled:	Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

Have product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

# Clean Front **Concentrate**

Concentrated lodophor for Manufacturing Use

Iodine...The Element of Confidence™

ACCEPTED

05/27/2015

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

4959-13

ACTIVE INGREDIENT:

Titratable Iodine 20.00% INERT INGREDIENTS. 80.00% 100.00%

\*from Polyoxyethylene alcohol - iodine complex

EPA Reg. No. 4959-13-AA

EPA Est. No. 4959-IL-1(C) 4959-CA-1(T) 4959-TX-1(D)

C.T.D - First letter of lot number indicates establishment

KEEP OUT OF REACH OF CHILDREN **DANGER: CORROSIVE TO EYES** (See side panel for additional precautions.)

Manufactured by:

West Agro, Inc. 11100 N. Congress Ave. Kansas City, Missouri 64153 Beorder #1-877-421-1905

#### **DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labelling. See Manufacturing Instructions for specific applications.

Consult Material Safety Data Sheet before using.

Only for formulation into Environmental Sanitation Products for the following uses: Norinse Sanitizer, Disinfectants, Topical Animal Health Care Products, Hand Sanitizers, Other Antimicrobial Products and uses in which US EPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration, and uses for Experimental Purposes that are in compliance with US EPA requirements.

CLEAN FRONT® CONCENTRATE will flow more easily if a day or two prior to formulating it is gradually warmed to 70°F to 100°F and then slowly added in a stream while mixing. NOTE TO FORMULATOR: Mix well in drum before sampling and before each use.

CLEAN FRONT® CONCENTRATE may be used to manufacture no-rinse sanitizers, disinfectants, topical animal health care products, hand sanitizers, and other antimicrobials. Prior to selling these types of finished products, it is the responsibility of the distributor to obtain the necessary regulatory approvals. Any sanitizer or disinfectant intended for intra- or interstate commerce must be registered with the U.S. Environmental Protection Agency. CLEAN FRONT® CONCENTRATE may be used in the manufacture of sanitizers and disinfectants that do not require rinsing after being adequately drained from food contact surfaces at concentrations not exceeding 25 ppm titratable iodine (refer to Federal Regulation No. 178.1010). To meet this requirement, all components used in the finished formulation must also comply with Food and Drug Administration no-rinse regulations. Antimicrobials intended for topical application to humans and animals must be approved by the U.S. Food and Drug Administration.

#### STORAGE AND DISPOSAL:

Keep container closed when not in use. Do not store below 25°F or above 100°F for extended periods

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple-rinse (or equivalent) promptly after emptying.

5 gallon or less containers: Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Capacity greater than 5 gallon containers: Triple rinse as follows: Empty the remaining contents into application equippment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water. Replace and tighten closures. Tip container to its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back adn forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repleat this procedure two more times. Then offer for recylcing or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate.or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.
