Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Dollie Howser	Title Regulatory Specialist	Telephone No. (Include Area Code) (816) 891-1668
2. Signature <i>Dollie Howser</i>		6. Date Application Received (Stamped)
3. Title Regulatory Specialist		
4. Typed Name Dollie Howser		
5. Date 101708		

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything to an unconscious person.

INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL:

STORAGE: Keep container closed when not in use. Store at room temperature (59°-86°F). Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: In case of spill, flood area with large quantity of water, washing to sewer or collection vessel. Waste resulting from use of this product may be disposed of on site or at approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying.

5 Gallon or Less Containers - Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Capacity greater than 5 gallon containers - Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water. Replace and tighten closures. Tip container to its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

Lo-Foam Concentrate

Iodine, the element of confidence!

A CONCENTRATED LOW-FOAMING IODOPHOR FOR FORMULATING USE ONLY

ACTIVE INGREDIENT:

Iodine* 13.30%

INERT INGREDIENTS: 86.70%

TOTAL 100.00%

* From Butoxy polypropoxy polyethoxy ethanol-iodine complex and Polyethoxy polypropoxy polyethoxy ethanol-iodine complex.

EPA Reg. No. 4959-14

EPA Est. No. 4959-IL-1

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CHEMICAL HAZARDS: May evolve iodine fumes when heated.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or regional Office of EPA.

NET CONTENTS: 29 U.S. GALLONS

(NET WEIGHT: 300 lbs./136 kg.)

Manufactured by:

WESTAGRO®

West Agro, Inc./Kansas City, MO 64153

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into Environmental Sanitation Products for the following uses: No-rinse Sanitizers, Disinfectants and uses for which USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration and use for Experimental purposes that are in compliance with USEPA requirements.

See Manufacturing instructions for specific dilutions.

Consult Material Safety Data Sheet before using.

NOTE TO FORMULATOR: Mix well in drum before sampling and before each use.

Preheat water to approximately 122°F (50°C). While mixing, slowly add Lo-Foam Concentrate, which has been warmed to about 100°F (38°C). If the product fails to go into solution, stop adding Lo-Foam Concentrate. Continue mixing until product goes into solution. Resume addition with mixing.

At room temperature, Lo-Foam Concentrate is quite viscous. Whenever possible, the entire contents of a drum should be used at one time to facilitate uniform unloading. If the manufacture of batches using partial drums of Lo-Foam Concentrate is unavoidable, or if the product has been exposed to low temperatures, the drum contents should be gradually warmed to about 100°F (38°C). Then roll the drum for about 10 minutes on a drum roller before use to ensure uniformity of the concentrate.
