OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: Lo-Foam® Concentrate
EPA Registration No. 4959-14
Application Dated: May 22, 2014
Receipt Dated: May 23, 2014

AUG 7 2014

Dear Ms. Valla:

This acknowledges the receipt of your Amendment application dated May 22, 2014 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) Section 3(c)(5), as amended.

Submission and Proposed Changes

Amend to update the Precautionary Statement and Physical and Chemical Hazards statements, and add skin and swallow hazards pictograms for Lo-Foam® Concentrate product (EPA Reg#4959-14). The proposed label dated 05/22/14 (pin punch 05/23/14).

Findings and Comments:

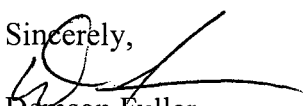

Based on the submitted materials, the label amendment noted above is **acceptable**.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

This latest amended label and a copy of this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact David Liem at liem.david@epa.gov or call (703) 305-1284, or me at fuller.demson@epa.gov or call 703-308-8062.

Sincerely,

Demson Fuller

Antimicrobials Division (7510P)

Att: Accepted stamped label

**PRECAUTIONARY STATEMENT
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes eye damage and skin irritation. Harmful or fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS

Contact with aluminum, copper, or brass may generate hydrogen gas. May evolve iodine fumes when heated.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Consult Material Safety Data Sheet before using.
Only for formulation into Environmental Sanitation Products for the following uses: No-rinse sanitizers, disinfectants, and uses for which US EPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration and use for Experimental Purposes that are in compliance with US EPA requirements.
See Manufacturing Instructions for specific dilutions.

NOTE TO FORMULATOR: Mix well in drum before sampling and before each use.
Preheat water to approximately 122°F (50°C). While mixing, slowly add Lo-Foam® Concentrate, which has been warmed to about 100°F (38°C). If the product fails to go into solution, stop adding Lo-Foam® Concentrate. Continue mixing until product goes into solution. Resume addition with mixing. At room temperature, Lo-Foam® Concentrate is quite viscous. Whenever possible, the entire contents of a drum should be used at one time to facilitate uniform unloading. If the manufacture of batches using partial drums of Lo-Foam® is unavoidable or if the product has been exposed to low temperatures, the drum contents should be gradually warmed to about 100°F (38°C). Then roll the drum for about 10 minutes on drum roller before use to ensure uniformity of the concentrate.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Keep container closed when not in use. Do not store below 0°F for extended periods.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple-rinse (or equivalent) promptly after emptying.

5 Gallon or Less Container: Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

Capacity greater than 5 gallon containers: Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water. Replace and tighten closures. Tip container to its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

KEEP OUT OF REACH OF CHILDREN

DANGER.

See left panel for additional precautions.

**CHEM-TREC EMERGENCY #
1-800-424-9300**

FIRST AID	
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.
IF ON SKIN:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
IF SWALLOWED:	Call a Poison Control Center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.
Have product container or label with you when calling a Poison Control Center or doctor or going in for treatment. You may also contact 1-800-424-9300 for emergency treatment information. [OTC] TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. [Caes] Cures against circulatory shock, respiratory depression and convulsion may be needed.	

ACCEPTED
AUG 7 2014
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 4859-14
