

PH 32 49-9-27 1281

FOR INDUSTRIAL USE ONLY

PRO 200

cleaner/sanitizer

PRO 200 is a low-foaming cleaner/sanitizer for use in restaurants and other food handling service institutions. PRO 200 may be used to sanitize glasses, dishes and equipment. In addition, it may be used on floors, walls, countertops, refrigerators and food storage areas.

PRO 200 will not leave streaks or spots on glassware or dishes.

ACTIVE INGREDIENTS:

Iodine* 1.6%

INERT INGREDIENTS: 98.4%

Total 100.0%

* From Butoxy polypropoxy polyethoxy ethanol-iodine complex and Polyethoxy polypropoxy polyethoxy ethanol-iodine complex

KEEP OUT OF REACH OF CHILDREN

DANGER:

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CHEMICAL HAZARDS: May evolve iodine fumes when heated.

ENVIRONMENTAL HAZARDS: Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

AVOID CONTACT WITH FOOD. CAUSES MODERATE EYE INJURY. AVOID CONTACT WITH EYES, SKIN OR CLOTHING. WASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Get medical attention.

IF IN EYES: Flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF ON CLOTHING: Remove and wash contaminated clothing before reuse.

LOT NO.:

Net Contents: One U.S. Gallon

U.S. Patent No. 3,888,983

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GLASSES AND DISHES

5 STEP SANITIZING PROCEDURE

- 1) Pre-rinse or pre-scrape equipment and utensils. If needed, pre-soak to remove gross food particles and soil.
- 2) Wash equipment and utensils in lukewarm water that contains an adequate amount of a good detergent or cleaner. Keep this water clean by frequent changing.
- 3) Rinse equipment and utensils free of wash water prior to sanitization.
- 4) Sanitize equipment and utensils by immersing them in a solution of 1 oz. Pro 200 per 5 gallons of lukewarm water (provides 25 ppm titratable iodine). Allow one minute contact time (or longer if required by local sanitation codes). Change water, as needed, to maintain a minimum of 25 ppm iodine, replacing at least once daily. Use approved iodine test kit to check concentration. In mechanical operations, do not reuse solutions. These solutions may be used to clean floors, walls and other areas.
- 5) After sanitizing for one minute or more, allow equipment and utensils to air dry. Do not rinse.

EQUIPMENT SANITIZATION: Remove gross food particles by pre-flushing or pre-scraping. Before sanitizing, clean equipment with 1 oz. Pro 200 to 5 gallons lukewarm water. Rinse with potable water. To sanitize, spray or immerse equipment with a fresh solution of 1 oz. Pro 200 to 5 gallons cold or lukewarm water (provides 25 ppm titratable iodine). Allow one minute contact time, or longer if required by local sanitation codes. When ready to use, drain off sanitizing solution.

Pro 200 is regulated by the U.S. Food and Drug Administration under the Food Additive regulation for use on food processing equipment and utensils up to 25 ppm of titratable iodine, without requiring a rinse with potable water.

STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Do not store below 32°F or above 100°F for extended periods.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal, or cleaning of equipment. In case of spill, flood area with large quantity of water, washing to sewer or collection vessel. Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility. Do not reuse empty container. Triple rinse, puncture and dispose of container in a sanitary landfill or by incineration.
