Subject: Revised Labeling-Reregistration Requirement
MEGA-SAN Acid Sanitizer
EPA Registration Number: 4959-42
Letter Dated: April 7, 2008
Receipt Date: April 7, 2008

Dear Ms. Howser:

The label submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

A stamped copy of the accepted labeling is enclosed for your records. The Agency is moving away from review of paper submitted registration applications to electronic review of applications. Therefore, we need your help to make this an efficient and convenient process for both you and the Antimicrobials Division. Accordingly, we are asking you to submit future labeling amendments for this product via the electronic labeling process. Refer to the following website for guidance on electronic submissions, including label: http://www.epa.gov/oppfead1/eds/esr_guidance.htm#overallsub. If you have any questions concerning electronic label submissions, a list of contacts is available at the following website: <http://www.epa.gov/oppfead1/eds/edsgoals.htm#contacts>.

Should you have any questions concerning this letter, you may contact me by telephone at (703) 308-6422 or by e-mail at heyward.adam@epa.gov or Lisa McKelvin by telephone at (703) 308-7496 or by email at mckelvin.lisa@epa.gov during the hours of 8:00 am to 4:00 pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Lisa R. McKelvin

LH Adam Heyward
Product Manager 34
Regulatory Management Branch II
Antimicrobials Division (7510P)

MEGA-SAN

ACID SANITIZER

MEGA-San is a non-iodine acid sanitizer for C.I.P. and C.O.P. systems, Tanks and Back flush systems.

ACTIVE INGREDIENTS

Decanoic Acid	3.0%
Nonanoic Acid	3.0%
Phosphoric Acid	28.5%
Propionic Acid	10.0%
INERT INGREDIENTS	55.5%
Total	100.0%

KEEP OUT OF REACH OF CHILDREN

Precautionary Statement
Hazard to Humans and Domestic Animals

DANGER

CORROSIVE. Causes irreversible eye damage or skin burns. May be fatal if swallowed. May be harmful if absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Do not breathe the vapor or spray mist. Wear long-sleeved shirt and long pants, socks and chemical resistant footwear, goggles or face shield, and chemical resistant gloves (such as barrier laminate or butyl rubber, nitrile rubber, neoprene rubber, PVC or viton, category C*). Wash hands before eating, drinking and chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing.

PHYSICAL and CHEMICAL HAZARDS

Mix only with water following label directions. Do not mix with chlorinated cleaners or sanitizers. Toxic chlorine gas will be formed. Contact with soft metals may generate hydrogen gas.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment authority. For guidance, contact your State Water Board or Regional Office of the EPA.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment.

IF SWALLOWED: Call a poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by a Poison Control Center or doctor.

HOT LINE NUMBER: In case of emergency call toll free 1-800-424-9300. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage

STORAGE AND DISPOSAL

Storage: Keep container closed when not in use. Do not store below 0°F for extended periods.

Pesticide Disposal: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOOD PROCESSING AND DAIRY EQUIPMENT:

Remove gross food particles and soil by a pre-flush or pre-scrape, and when necessary, a pre-soak treatment. Clean all surfaces with a chlorinated alkaline cleaner, followed by a potable water rinse prior to the application of the sanitizing solution.

Sanitize equipment prior to use with a solution of 1 ounce MEGA-SAN per 6 gallons of water, to provide 90 ppm of decanoic and nonanoic acid. Circulate sanitizing solution through C.I.P. and C.O.P. systems for a minimum of 2 minutes. Sanitizing solution should have a pH of 4 or below. Completely drain solution and allow to air dry. For mechanical operations, the prepared use solution may not be reused for sanitizing, but may be reused for other purposes such as cleaning. For manual operations, fresh sanitizing solution should be prepared daily or more often if the solution becomes dirty or soiled.

425

575

Follow State and local Health Department regulations for cleaning and sanitizing food processing and dairy equipment.

Regular use of MEGA-SAN will prevent the formation of milkstone and mineralstone on food contact surfaces.
