OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

July 18, 2019

Timothy A. Schwab  
Production Regulatory Specialist  
West Agro, Inc.  
11100 N. Congress Ave.  
Kansas City, MO 64153

Subject: Notification per PRN 98-10 – Minor label revisions throughout label  
Product Name: West Agro Acid Sanitizer  
EPA Registration Number: 4959-42  
Application Date: March 19, 2019  
Decision Number: 550908

Dear Mr. Schwab:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Melanie Bolden at (703) 347-0165 or via email at [Bolden.Melanie@epa.gov](mailto:Bolden.Melanie@epa.gov).

Sincerely,

A handwritten signature in cursive script that reads "Melanie Bolden for".

Demson Fuller, Product Manager 32  
Antimicrobials Division (7510P)  
Regulatory Management Branch I  
Office of Pesticide Programs

**WEST AGRO® ACID SANITIZER**  
**[MEGA-SAN® ACID SANITIZER]**

A non-iodine acid sanitizer for C.I.P. and C.O.P. systems, tanks, and back flush systems

<b>Active Ingredient:</b>

## PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CORROSIVE.** Causes irreversible eye damage or skin burns. May be fatal if swallowed. May be harmful if absorbed through skin or inhaled. Do not get in eyes, on skin, or on clothing. Do not breathe vapor or spray mist. Wear long-sleeved shirt and long pants, socks, and chemical resistant footwear, goggles or face shield, and chemical resistant gloves (such as barrier laminate or butyl rubber, nitrile rubber, neoprene rubber, PVC or viton, category C\*). Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing.

**PHYSICAL OR CHEMICAL HAZARDS:** Mix only with water following label directions. Do not mix with chlorinated cleaners or sanitizers. Toxic chlorine gas will be formed. Contact with soft metals may generate hydrogen gas.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment authority. For guidance, contact your State Water Board or Regional Office of the EPA.

## DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

[If not agitated, the diluted solutions should be held above 50°F to prevent separation of the ingredients. Diluted solutions under agitation can be used down to 35°F.](#)

**FOOD PROCESSING AND DAIRY EQUIPMENT:** Remove gross food particles and soil by a pre-flush or pre-scrape, and when necessary, pre-soak treatment. Clean all surfaces with a chlorinated alkaline cleaner, followed by a potable water rinse prior to the application of the sanitizing solution. Sanitize equipment prior to use with a solution of 1 to 2 ounces **Mega-San® Acid Sanitizer** per 6 gallons of water to provide 90 to 180 ppm of decanoic and nonanoic acid. Circulate sanitizing solution through CIP or COP systems for a minimum of 2 minutes. Sanitizing solution should have a pH of 4 or below. Completely drain solution and allow to air dry. For mechanical operations, the prepared use solution may not be reused for sanitizing, but may be reused for other purposes such as cleaning. For manual operations, fresh sanitizing solution should be prepared daily or more often if the solution becomes dirty or soiled. Follow State and Local Health Department Regulations for cleaning and sanitizing food processing and dairy equipment. Regular use of **Mega-San® Acid Sanitizer** will prevent formation of milkstone and mineral stone on food contact surfaces.

### STORAGE AND DISPOSAL

**Do not contaminate food or feed by storage or disposal or cleaning of equipment.**

**STORAGE:** Keep container closed when not in use. Do not store below ~~0~~40°F for extended periods.

**Pesticide Disposal:** Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA regional Office for guidance.

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple-rinse (or equivalent) promptly after emptying.

*(For non-refillable containers equal to or less than 5 gal.)*

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

*(For non-refillable containers greater than 5 gal.)*

Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water. Replace and tighten closures. Tip container to its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.
