

SCREEN-PRUF

A THIN "INVISIBLE" FILM PROTECTS FOR WEEKS
DIRECTIONS — IMPORTANT

APPLY SPARINGLY to clean, dry screens with roller, screen applicator or sponge. It is best to treat both sides of screens to assure complete coverage. If any excess, wipe off with a lint free cloth.

REMEMBER, roll or spread a THIN "INVISIBLE" FILM, it is more effective and lasts longer. Be sure to apply to ALL screens. Retreat after cleaning. Use on any type screening, including plastic.

ANTS ROACHES. Paint or spray around door frames, pipes, under sinks, cracks, crevices, ant trails, and areas where they can gain entrance.

GARBAGE CONTAINERS. Paint or spray inside and out as an aid in controlling flies. For maggots make regular applications to garbage in can.

A pint will cover an average 5 room home. For larger homes, screened porches, patios, get the economical quart or gallon size.

CAUTION: Harmful if swallowed. Avoid repeated or prolonged contact with skin. Avoid breathing spray mist. Wash with soap and water after using. Avoid contamination of feed and food-stuffs. Keep out of reach of children. Do not use or store near heat or open flame.
