DIRECTIONS FOR USE

FOR SPOT APPLICATION ONLY
GENERAL: This is a concentrated formula. Shake well first. Add
contents of this container to one gallon of water. Mix vigorously to
obtain a milky white emulsion. To control roaches, crickets, and
silverfish, pyrethrin concentrate used as a spot treatment in car-
pet, cockroaches, spiders, and other pests. Specific
instructions below. Apply as a coarse spray. Do not
apply to localized areas where pests may occur. Spray surfaces
until wet. Re-treat as needed.

**TO KILL COCKROACHES, ANTS, CRICKETS, SILVERFISH,
SPIDERS AND SOUBUGS:** Spray areas where these pests are
found or may hide, including dark corners of rooms and closets,
cracks and spaces in walls, along baseboards and door and win-
dow frames, behind and beneath stoves, stoves, refrigerators and
cupboards, in and around garbage cans, plumbing and down water,
etc. Avoid spraying out of living places should be sprayed
directly. For ants spray to and under doors and windows
and under cracks. Repeat as necessary.

TO KILL BROWN DOG TICKS AND FLEAS: Thoroughly spray as
a spot treatment in infested areas such as pet beds and nesting
quarters, under chairs and couches, along and behind base-
boards, under and behind frames, and localized areas of floor and
floor coverings where these pests may be present. Old bedding
should be removed and replaced with clean, fresh bedding after
treatment. Do not spray pets with this product.

FLIES AND MOSQUITOES: Use only out-of-doors as an aid in
reducing annoyance from these insects. Spray outside surfaces of
windows and door frames as well as down areas where these pests
may enter the home. Also spray dark corners and localized nesting
areas such as under eaves, or porches, patios and porches where
these insects may congregate. Flies and mosquitoes coming in
from outside may be killed. Repeat treatment when
necessary.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

May be harmful if swallowed, inhaled or absorbed through skin.
Avoid breathing spray mist and provide adequate ventilation in
area being treated. Avoid contact with skin, eyes and clothing. In
case of contact immediately flush skin and eyes with plenty of
water. Wash thoroughly with soap and water after handling. If
poisoning occurs, get prompt medical aid.

STATEMENT OF PRACTICAL TREATMENT

If swallowed — Drink 1 or 2 glasses of water and induce vomit by
touching back of throat with finger. Do not give anything by
mouth to an unconscious person. Get medical attention.
If on skin — In case of contact, remove contaminated clothing and
immediately wash skin with plenty of soap and water.
If in eyes — Flush eyes with plenty of water. If irritation persists,
contact a physician.

NOTE TO PHYSICIAN: Cholinesterase inhibitors are a cholinesterase inhibitor.
Treat symptomatically. Atropine by injection is antipode of choice.

Do not use in food areas of home processing plants, restaurants or
other areas where food is commercially prepared or processed. Do
not use in stored areas where food is stored in living areas. In-
clude processing surfaces and utensils should be covered during
treatment or thoroughly washed before use. Cover exposed food.
Remove pets and birds and cover fish aquariums before spraying.
Do not allow children or pets to contact treated surface until spray
has dried.
