FOR SPOT APPLICATION ONLY

GENERAL: This is a concentrated formula. Use only enough for immediate use. Shake well. Use one part per million. Do not use in areas where food is prepared or stored. Do not use in areas where food is prepared or stored. Do not use in areas where food is prepared or stored. Do not use in areas where food is prepared or stored.

TO KILL COCKROACHES, ANTS, CRICKETS, SILVERFISH, SPIDERS, SOWBUGS: Spray areas where these pests are found or may be. Includes base corners of rooms and closets; cracks and crevices in walls; baseboards and door and window frames; behind and beneath sinks; stoves; refrigerators or cabinets; in and around garbage cans; basement and other utility installations. Pests driven out of hiding places should be sprayed directly for one hour to one week, one or more days and weeks and areas and cracks treated as needed.

TO KILL BROWN DOG TICKS AND FLEAS: Thoroughly spray a spot treatment in areas such as pet beds and kennels; kennels; nearby cracks and crevices; under and behind baseboards; window and door frames; and nesting areas of birds or bats; coverings where these pests may be found; (No bedding should be removed and replaced with clean bedding and treated.) Do not spray pets with this product. To control the source of your pet's infestation, treat pets with a product registered for animal application.

FLIES AND MOSQUITOES: Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray baseboards and window frames, areas such as under eaves of porches, beams and porches where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be dead. Repeat treatment one week.
